MagnaPrint® Discharge Base AB AW

MagnaPrint® Discharge White AB AW

MagnaPrint® Discharge Super White AB NJ

MagnaPrint® Activator AB

A conventional discharge system

MagnaPrint® Discharge AB AW inks are activated with zinc formaldehyde sulfoxylate.

Suitable fabrics are discharged with excellent results. Addition of **MagnaPrint® Eco Pigments** results in brilliant colour development and very soft handle.

- Excellent bright, clean colours using waterbase pigments
- Super soft finish with excellent colour fastness and durability
- PVC, Phthalate, APEO free formulations. Meets all key international environmental standards*
- Superb discharge colour development on suitable fabrics
- Low viscosity inks print easily on manual and automatic presses
- Quick, clean release from screen

* Garments should be washed to meet the formaldehyde requirements of Oekotex Class 1 and the Nike RSL

All information is given in good faith but without warranty. They do not release you from testing our products as to their suitability for the intended processes and uses.
