FESPA 1
AMSTERDAM EDITION

TIMES ARE CHANGING...

...that's for sure!

But what will never change is that we will do our best every day to provide you with high-quality, useful and time-saving tools that will make your life easier now and in the future.

We are very happy to finally be able to present our products to you face to face after almost two years without a trade show appearance. In our opinion, the signmaking business is more than ever dependent on the personal exchange between manufacturers and users to initiate new developments and drive this industry forward. Even in times of online meetings and social media groups we value the direct contact with you very much and are looking forward to your feedback and ideas.

In the meantime, our product development has of course progressed and we are proud of the new items that will premiere at FESPA. Furthermore, we will present you our new booth, which will surely be one of the highlights of this show ;-)

However, we also always have an eye on the future and the associated challenges of digital transformation. So we had to allow ourselves to ask whether a printed catalog really still has a reason for existence or whether this is already an extinct dinosaur from days gone by.

We still love catalogs and so we decided to develop this „hybrid catalog“. The listing of our products gives you a perfect overview of our complete range of tools and the QR codes in the product column direct you to the details, prices, application images and videos of the item. This way, the printed catalog always stays up to date and becomes a reference book for optimizing your everyday life.

We hope you enjoy looking at and browsing through the „hybrid“ catalog. If you have any ideas or suggestions, we look forward to receiving a call or e-mail from you.

Your Yello's

LEAN-STATEMENT

Every thing we do is based on the Japanese concept KAI-ZEN (or TPS - Toyota Production System). Our top priorities are: "Use your brain, not your wallet" and "There's no end to improvement". "Improve your life for at least 2 seconds every day". The philosophy of KAIZEN is a central component of our success. KAIZEN or LEAN-THINKING isn't a religion or a seminar. It describes a way of thinking, which is able to

improve work life and private life a lot. This way of thinking is included in every thing we do since more than 9 years now. But KAIZEN or LEAN's a lot more. Just visit our manufacturing in Windeck and meet one of the friendliest and most motivated teams I ever saw!

Yel-Lo Plek / Plek Blade

Vinyl expert and application trainer Rainer Lorz fulfilled a wish with us and designed HIS dream squeegee, which he had been planning for a long time. He wanted a squeegee which one likes to hold in the pocket as well as in the hand and which are absolutely multi-functional applicable.

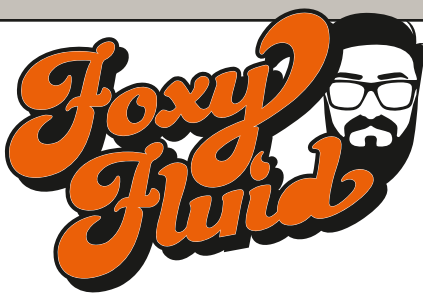

No matter whether it's signmaking, window tinting, car wrapping or PPF: with the different Shore hardnesses and two different cross-section profiles (Yel-Lo Plek and Plek Blade), we cover all areas here. Whether it is small corners to stick as a so-called „Micro-Squeegee“, deeper lying areas, whether you need to pick up the most different sealing rubbers, a firmer pressure when tinting windows need, or deeper areas in the paint protection applications at for instance bumpers or other need to work in properly.

The special shape is designed so that you can turn the squeegee in one hand and so can also press edges slowly without damaging the material. Through the hole in the middle (center finder) you turn the squeegee like a spinner automatically and quickly to the desired application. Whether larger surfaces or light curves - with the Yel-Lo Plek and the Plek Blade everything goes very easily from your hand.

As you can already guess - its absolutely pleasant and ergonomic shape comes in reference to the music industry. The comparison fits well: What Jimi Hendrix was for the music world - Rainer Lorz is today for the world of self-adhesive vinyls - You play with the Best...!

NEW

The smart way of breaking surface tension

Once again it was the ingenious Rainer Lorz who once more unhinges physics a little to make your life easier.

Rainer thought and experimented for a very long time about how to facilitate the pre-stretching and fitting of tinting films on vehicle windows. The result is impressive: A small mist of the new liquid is enough to reduce the surface tension of glass or painted surfaces like by magic, it reduces the surface tension of glass or painted surfaces WITHOUT leaving behind a greasy film, which would then probably have a negative effect on the overall result.

In fact, this „magic“ can be easily undone. Either by a short wipe with Surface Cleaner or with a hot air gun and 80 degrees (Celsius) of warm air. If a spot has been forgotten, the sun will do it for you...even if Vinylfilm has already been applied over it.

NEW

MageTape Ruler Power

NEW

Extreme adhesive power on non-magnetic surfaces

When we launched the MagTape Ruler series many years ago, we had no idea that this revolutionary idea would one day make the lives of thousands of signmakers easier :-)

But we also received customer feedback asking for a version of the popular rulers to which prints or vinyls would adhere even better. Said, done: Now there is the „Power“ version of the MagTape Ruler made of 1 mm thick sheet metal. Thanks to the stronger material, they can apply three times as much traction as the original, but are less flexible. We therefore continue to offer the regular version and leave it up to the users to decide for which purpose they use one of the two variants.

The Power-Ruler are reusable and are easily cleaned of dust and dirt particles with our GeckoClean cleaning agent.

NEW

TwinBase Handle

You want a little more pressure on your squeegee surface? A little more ergonomics for larger projects or simply a longer arm for hard-to-reach corners? From now on this is no longer a problem. Our new squeegee handle TwinBase Handle allows you to do all that.

Whether as a pure handle with a 15cm long shaft, a 60cm extension or extendable up to 90cm: No problem. Thanks to the innovative „half-squeegee technology“ of the TwinBase system, you can insert any desired squeegee hardness into the headpiece. The TwinBase Handle is delivered with our YelloTwin Lip Gold. This gives you maximum flexibility and a solution for even the most complicated applications.

Versions:

- TwinBase Handle 15
- TwinBase Handle 60
- TwinBase Handle Flexi

TwinBase Handle 15

Maximum flexibility with an extendable handle up to 90 cm

NEW**WRAP
DEFENDER**

WrapDefender - the original

WrapDefender 45L

WrapDefender 45R

WrapDefender Loony

WrapDefender Mini

WrapDefender Grip

WrapDefender
SuperSet

Our WrapDefender is a special knife that will change the way you work and reduce damage to vehicle paintwork, sealing rubbers or unpainted attachments. Many thanks for the great cooperation with „The CarWrap Trainer“ Rainer Lorz.

Wherever you use this knife, you'll love it; preparation of prints, plots, or foils, while labeling, handling ppf and especially when car wrapping. The WrapDefender protects you from cutting into the surfaces next to the vinyl so you can work fast and safe. The use of the WrapDefender is unlimited, so it'll become your "constant companion" during everyday work life.

Wrap Defender Mini - Shorter version of the original Wrap Defender. Ergonomic handle and perfect for filigree cuts.

Wrap Defender Grip - Perfect for working with adhesive gloves. The handle makes it easier to grip the tool and it is easier to guide it.

WrapDefender 45R / 45L - Perfect for making cuts in hard-to-reach areas where the handle would be in the way. With a left or right bend.

WrapDefender Loony - Perfect for cuts behind components / areas in front of it, such as radiators, furniture, window frames, car parts.

WrapStick Station / WrapStick Station Mag

NEW

No more searching for your WrapSticks that you can't quickly find in your work bag.

We provide a remedy with the WrapStick Station, this offers space for 5 WrapSticks of your choice. Due to the integrated magnets in the holder, slipping or falling out is no longer possible. So everything stays in place.

Drill holes for wall mounting are included in the WrapStick Station.

The WrapStick Station Mag has two magnets on the back so that you can place the holder on the vehicle at any time.

Delivery without WrapSticks!

Gecko Patch POWER

NEW

Extreme adhesive force on non-magnetic surfaces!

Many of you wished for a little more holding power for larger graphics or higher loads. We are fulfilling this wish with the GeckoPatch Power Line. The stronger sheet metal carrier allows a threefold increased pulling force of the magnets. We recommend using the YelloBlade or at least two-handed operation when removing POWER Patches, e.g. from glass panes.

3-fold adhesive force due to 1 mm thick sheet metal!

Pads are reusable and are easily cleaned of dust and dirt particles with the GeckoClean.

YelloSnap Box

Storing tools has always been an important and very individual matter for many craftsmen of all trades in the last two hundred years.

As a tribute to all our hard-working ancestors, we have revived the good old „tin box“ with snap lock. Nowadays it is made of light, anodized aluminum - but this does not detract from the protective function for your valuable tools. With our YelloSnap Box you can always keep your most important tools clean and safe. Currently you can choose from two engraving motifs.

Have fun with the renaissance of the good old days.

Storage box is delivered empty!

YelloPEG System

Probably the most flexible and versatile PEG Wall System for Carwrappers and Signmakers EVER.

It all started with the question of how we can fix a disassembled Door-handle, Mirrorcap or Sharkfin antenna to wrap it as easy as possible without giving stress to the vinyl at the wrong areas. Well...after a few beers someone said "Why do we try to fix the object and not the vinyl like we do at the WRAP-U-EZEE?" A star was born!

While we thought about all kinds of clamps or brackets, that PEG System grew more and more. And here it is! Ladies and gentlemen: The new generation of WRAP. Since all items in this System are individual, you can build your own personal "WrapWall". The Boards are available either as a single unit or as a triple board. But no matter what, you can extend the single to a double, a triple to a quadripartite and so on.

To use the Wrap-U-eeze Slight-in's, you don't have to buy one of the Boards. You can also go with an optional Benchbraket or a single Wallmount Bracket. Like we said: SUPER FLEXIBLE.

Check this out in our online shop.

NEW

NEW

Wrap-U-ezee Slight-in

To use the Wrap-U-ezee Slight-in's, you don't have to buy one of the Boards. You can also go with an optional Benchbraket or a single Wallmount Bracket.

NEWS

Wrap-U-ezee Flat

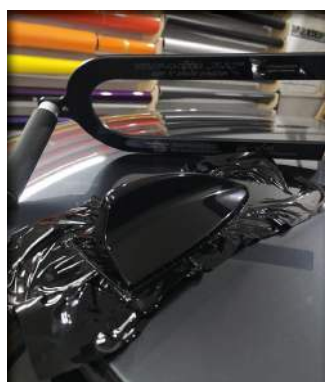

From now on the Wrap-U-ezee family has a new member: With the help of the new Wrap-U-ezee Flat, many add-on parts can now be wrapped directly on the vehicle without disassembly. The freshly hatched Flat is narrower than its big brother and, thanks to its 6 mm thick, scratch-free material, it is also a lot more flexible.

The pre-stretched film is simply placed on the add-on part from above, squeegeed and finally cut to size.

NEW

NEW

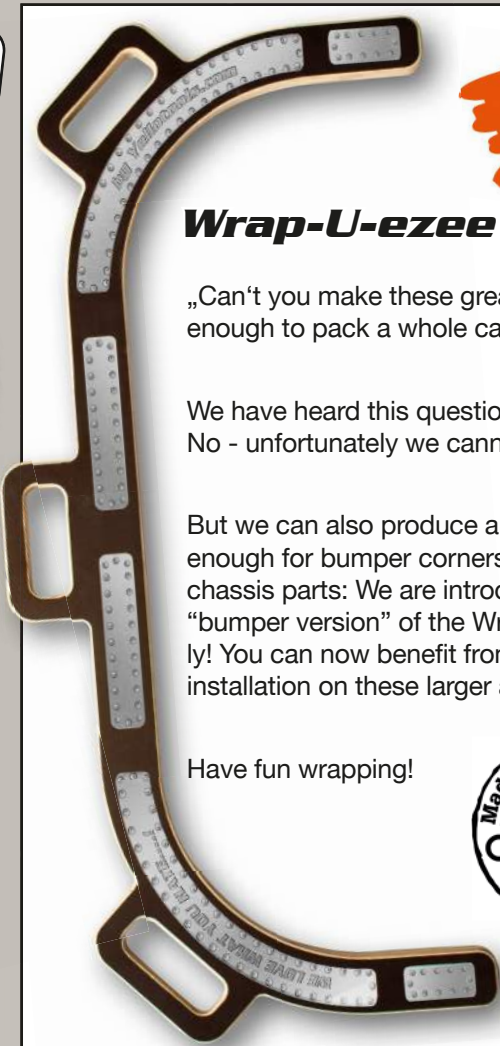

Wrap-U-ezee Bumper

„Can't you make these great tools big enough to pack a whole car?“

We have heard this question many times. No - unfortunately we cannot ...

But we can also produce a tool that is big enough for bumper corners or very large chassis parts: We are introducing you to the "bumper version" of the Wrap-U-ezee family! You can now benefit from the stress-free installation on these larger areas.

Have fun wrapping!

CUTTING

In our Online Shop you will find an extensive selection of cutting tools for the advertising technology and car wrap that you really need and make your daily work even more efficient. Whether it is the clean and fast processing of foils or the installation of stickers - it all depends on the right cutting tool.

SasserCut Pro / SasserCut Pro Set

Roller-guided splitting knife for vinyl cutting on car doors, fuel caps and the like. It has a standard immersion depth of 5.3 mm. With the replacement rollers you can easily change the depth to 4.0 or 6.5 mm.

YelloGuide Flexi

The ingenious 16-in-1 sign making multi-tool for internal and external distance cuts. With the YelloGuide Flexi you can cut along an inner or outer contour with a distance of 3, 4 or 5 mm.

WrapDefender

The WrapDefender is the first safety knife for vehicle flippers with which you can easily cut curves, for example to trim the foil with paper in the wheel house. The easy to change, super-sharp and stainless steel scalpel blade is superior to any cutter blade.

WrapDefender 45R / 45L

Perfect for making cuts in hard-to-reach areas where the handle would be in the way. With a left or right bend.

WrapDefender Grip

Perfect for working with wrapping gloves. The handle makes it easier to grip the tool and it is easier to guide it.

WrapDefender Loony

Perfect for cuts behind components / areas in front of it, such as radiators, furniture, window frames, car parts.

WrapDefender Mini

Shorter version of the original Wrap Defender. Ergonomic handle and perfect for filigree cuts.

WrapDefender SuperSet

This Set includes all WrapDefender version, a replacement head and spare blades.

BodyGuardKnife

Vinyl Cutter for release paper with ergonomic grip. Our „BodyGuard Knife“ protects your graphics or the ground with its stilt. A special teflon sticker increases the sliding property and guarantees a precise and safe cut through your vinyl or the application tape!

BodyGuardKnife Teflon

Vinyl Cutter with a special teflon coating. The Teflon coating guarantees a clean and safe cut through your vinyl or the application tape.

BodyGuardKnife Pro Teflon

The „PRO TEFLON“ safety knife has an extra sturdy aluminum handle, including a compartment for storing spare blades.

BodyGuardKnife Duo HD

The safety knife is also available as a „Heavy Duty“ version with the „Big Grip“, with which pull or push cuts can be carried out without any problems.

BodyGuardKife TWIN

The safety knife for cutting out a median strip in one step.

BodyGuardKife TWIN Teflon

The safety knife with teflon coating for cutting out a median strip in one step.

BodyGuardKife TWIN Flexi / Flexi Teflon

The 2-in-1 vinyl cutter in five different cutting widths. You can freely choose the cutting distance according to your application. Different spacers: 14mm, 17mm, 22mm and 27mm, 42mm

ProTeflon Shoe

Teflon coated stilt for the BodyGuard Knife.

Teflon Shoes

Changeable Teflon-Pad's for the BodyGuard Knife-

AngelCutter

Edge Trimmer for thin cuts on the edge of your sign, usable on both sides. Adjustable cutting widths 0.5mm, 1.0mm, 1.5mm. The blades are exchangeable.

LongReach Duo

The brilliant „arm extension“ is available as a practical 2-in-1 version for push and pull cuts. Of course, this vinyl knife with extended handle is equipped with the head of our ingenious BodyGuard-Knife. Available in lengths of 60cm and 90cm.

LongReach Duo TWIN

Vinyl Cutter with arm extension for double cuts. Available in lengths of 60cm and 90cm.

LongReach Duo Mag

Vinyl Cutter with arm extension and integrated magnets. Available in lengths of 60cm and 90cm.

LongReach Duo Pro Teflon

Vinyl Cutter with teflon coating and with arm extension. Available in lengths of 60cm and 90cm.

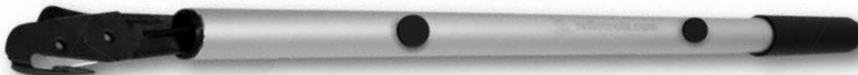

LongReach Duo Flexi Pro Teflon

Cutting plotter with teflon-coated stilts and extendable arm extensions from 75 to 100 cm.

LongReach Duo Mag Pro Teflon

Vinyl Cutter with teflon coating, integrated magnets and an arm extension. Available in lengths of 60cm and 90cm.

BladeBreaker HD black/silver

It has never been easier to snap off cutter blades. The robust and sturdy body of the blade box is made of aluminum. Thanks to the practical magnetic closure, the broken blades are held securely inside the box.

BladeBreaker Pro

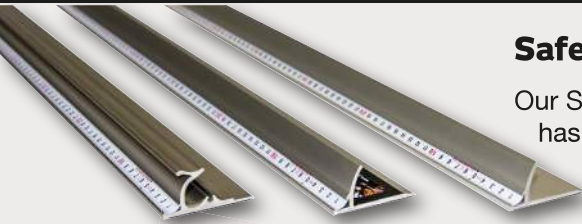

The snap-off blade box with a small removable magnetic plate in the lower seat area. The magnet holds the small demolition residues and tips on the bottom of the box. This finally stops the annoying jingling of the metal splinters and allows the debris to fall out only if you want it!

BladeBreaker mini

With the snap-off blades box BladeBreaker Mini you can easily and safely break off all 9 mm blades and let the blade and make the blade remainders disappear directly into the inside of the blade box. The tiny blade box fits in every tool bag!

SafetyRuler Family

Our SafetyRuler are safety at work and pure ergonomics. The Ruler has a high-quality rubber coating on the rear side, providing firm support on all smooth surfaces and is available in any intermediate size up to a max. Length of 16.4 ft (5m).

CutCoaster

The Cutting Mouse for the SafetyRuler Platin with maximum cutting comfort with minimal effort for precisely straight cuts. It is for high security and effortless cutting, even on thicker materials.

CutCoaster Wheel

Cutting Mouse with round blade for the SafetyRuler Platin. Textiles and fabrics can be cut more comfortable with the circular blade of the cutting mouse, just like all other fibrous materials.

SafetyRuler Platin Combo

The Signmaking Cutting Ruler with integrated cutting mouse. Due to the practical scaling on the front, you can always orient yourself precisely. Thanks to the raised protective edge, the cutting ruler can always be safely used with the cutter knife, too.

Cutting Crew

Professional knives for sign maker and car wrapper. Available in different versions - We have the right knife for everyone.

HeroKife Swivel/Straight

Short vinyl scalpel for hard-to-reach-places. Our HeroKnife Swivel with rotating swivel knife is perfect for tight curve cuts and the HeroKnife Straight with a fixed blade is for tight bends.

SwivelKnife / Janus SwivelKnife

The blade of this swivel knives easily follows each of your movements during cutting. The Janus SwivelKnife also has a fixed blade.

Scalpel Family

The Signmaker scalpels in different versions. A must have for every signmaker and carwrapper.

FlipperKnife Pen

With this knife you can stop the blade at two cutting positions with different cutting lengths, or hide the blade safely in the handle. The Flipper KnifePen is also available as a piercing tool for air bubbles. Blade and needle are of course interchangeable.

FingerTip KnifePen

The „FingerTip KnifePen“ is great for cutting out fine details and doing filigree cutting work. You can also use it as a bubble popper tool.

FingerTip KnifeSwivel

Fingertip knife with rotating blade. The swivel version works in principle like a plotter. With just the movement of your hand, you are now free to cut all shapes, ornaments and letters out of the vinyl.

YelloSwivel Plug

Swivel Knife Attachment for our multi tool FingerTip KnifeSwivel.

2-K-Cut / 2-K-Cut Eco

The 2-K-Cut is a stainless steel set square, which can also be used as a cutting angle (90°), with a length of about 50 cm. The Eco version is made of acrylic glass to better see the cutting line.

YelloLip Cutter

Squeegee insert with integrated BodyGuardKnife cutting shoe for our popular YelloTwin Base.

AllStar Cutter

the AllStar Cutter - a cutting shoe from the BodyGuardKnife, integrated into our AllStar Gold plastic squeegee. This allows the film to be prepared and directly applied.

Tinny Cut / Tinny Cut Mag

The “Tinny Cut” is very slim, has a longer cutter control and a super sharp and long lasting inox blade. Also available with a holding magnet on the backside.

YelloShear Basic / YelloShear Pro

Professional stainless scissors with ergonomical soft-grip handle. The YelloShear Pro are available for left-handed as well as for right-handed people. Both scissors are very sharp!

CuttingMat Crystal, Antistatic and Frosted

- unseamed sizes up to 20 meters long
- self-healing for durability and no-steer cutting
- oil and petrol resistant
- phthalat free
- Made in Germany
- absolute flatness
- usable on both sides
- frosted = low reflection
- frosted = lower surface adhesion (easier removal of adhesive residues)

CuttingMat X-Shift Infinity

The Yellotools patchwork Cutting Mat „X-Shift Infinity“ offers you a puzzle-like endless system. The professional scale of the Cutting Mat is 55 x 86 cm, whereby the basic element itself occupies an area of 60.8 x 91.3 cm.

EasyOrbit

Circle cutter with practical center needle for diameters of 10 mm - 150 mm.

YelloWheel PRO

A professional circular knife for cutting fibrous or gridded surfaces and even textiles. In three stages you can adjust the rolling characteristics exactly as it feels best for you.

EasyOrbit Rondo

Vinyl circle cutter without center needle. With this tool you can cut out circles that have a diameter of 2.4 - 15 cm.

SensorCut Orbit

With this tool you can easily perform circle cutting with a minimum diameter of 5 mm and a maximum diameter of 150 mm without a center needle.

MittmanRuler

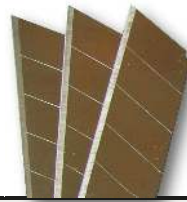

An acrylic cutting ruler with a smart scaling. The ingenious clear cutting ruler makes the cutting jobs in signmaking much easier. Available in different sizes: 640 mm (25.2"), 1290 mm (50.8"), 1580 mm (62.2").

BlackBlades

Extremely sharp replacement blades with an high amount of carbon.

SpareBlades

Snap-off blades in 9 mm or 18 mm.

TitanBlades

Blades with titanium coating. Perfect cut without any pressure on the knife.

SpareBlades Cera 59°

Extremely sharp ceramic blades for the YelloCut Cera.

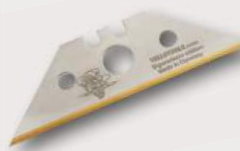

SpareBlades BodyGuardKnife

Replacement blades for our BodyGuard-Knife. Pack of 10.

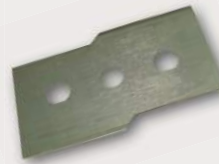

TitanBlades BodyGuardKnife

Ultra-sharp spare blades with titanium coating. Pack of 10.

TitanBlades Trapez

Extra sharp replacement blades with titanium coating.

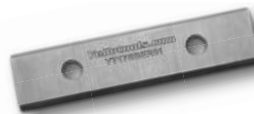

SpareBlade CutCoaster

Replacement blades for the CutCoaster

TitanBlades CutCoaster

Titanium coated blades for the CutCoaster & AngelCutter.

AngelRacer SpareBlades

Spare blades for the AngelRacer made of hardened steel.

SpareBlades

These spare blades fit on the EasyOrbit Rondo and Sensor-Cut Orbit.

SpareBlades EasyOrbit

Replacement blades for the EasyOrbit.

SpareBlades Weeder 59°

Scalpel Replacement Blades.

SpareBlades Weeder 30°

Scalpel Replacement Blades.

SpareBlades Janus SwivelKnife

SpareBlades for Janus SwivelKnife and HeroKnife Swivel.

SpareBlades CutCoaster Wheel

Spare blades for our CutCoaster Wheel.

SpareBlades Wheel

Spare blades for our CutCoaster Wheel.

SpareBlades SasserCut Pro

Plastic blades for the SasserCut Pro

CutGrip

The grip aid for cutter offers you ergonomic comfort at the highest level and makes it much easier to hold the knife. The knife handle is suitable for sign makers who are right-handers as well as for left-handers.

EasyLink

Cutting Ruler Extension - The Cutting Ruler Extension connects your SafetyRuler Platin very tightly. Its worth to mention that it also glides like a Formula 1 racing car in its special track.

LongReach Bracket Mag/Wall

With the magnetic bracket "LongReach Bracket Mag", you can not only „park“ your LongReach Knives, but also all other long signmaking tools. The magnetic holder is suitable on many metal surfaces. Of course you can screw the wall version on your workbench.

LeanRuler Bracket

Practical cutting ruler holder. Available for wall or sub-table mounting.

SafetyRuler SpareMat

With the fixing tape SafetyRuler SpareMat, the cutting ruler remains in place. The anti-slip tape can be easily attached and also renewed, if needed.

SQUEEGEE

Yellotools designs and manufactures high quality squeegees for every Sign Maker need. We know the squeegees are „the Signmaker’s best friend“ and that „the“ perfect squeegee is not the same for everyone. It’s your individual, personal way of working and technique that shows you what „your“ ideal squeegee models are!

SQUEEGEE

ProBasic Family

The 4“-Basic in black, gold, blue, pink, orange, green, peekaboo, teflon, clean and antistatic. The Squeegee is available in all degrees of hardness that you know from Yellotools.

ProWrap Family

Our allrounder in black, gold, blue, pink, orange, green, peekaboo, teflon, clean and antistatic. The Squeegee is available in all degrees of hardness that you know from Yellotools.

ProWrap Betty S32 / S40 / S65

the ultimate “30-degree squeegee” for all car wrapping applications. You will never again have the wrong working angle - only safe and fast applying of your vinyls! In three degrees.

ProWrap Duo Family

The ProWrap Duo is a 4“ and 6“ squeegee in one tool. The Squeegee is also available in all degrees of hardness.

TonnyMag Family

Magnetic Squeegee. The two, laterally integrated magnets „park“ the squeegee on all magnetic surfaces. The TonnyMag is available in different degrees of hardness.

AllStar Family

The ergonomic squeegee with the 30 ° edge. The AllStar squeegee is available in all degrees of hardness.

MagicMaster Family

The 5” Squeegee for signmaker and car wrapper. Available in all degrees of hardness.

ProWrap SmellGood Family

The first scented squeegees in the version Pina Colada, Peppermint, Coffee, Caramel Cupcake and Bubble Gum. Available in 63° Shore.

YelloTwin Lip Family

The squeegee insert for our YelloTwin Base. You can put together your own individual squeegee. Available in all degrees of hardness.

YelloTwin Base

The ergonomic handle consists of two shells, in which you can insert a desired squeegee. Combinations from very soft to very hard are possible. The handle „YelloTwin Base“ is equipped with two magnets so that you can always „park“ the squeegee.

TwinBase Handle

Squeegee handle for more pressure, flexibility and ergonomics. Available in the version with a 15cm long shaft, a 60cm extension or extendable up to 90cm.

Bio Squeegee Family

Our Bio squeegees are made of 33% recycled wood. Available in the version ProWrap, ProWrap Duo, MagicMaster and YelloMaxx. Shore 82 D.

SqueegeeRuler

The Squeegee with scale up to 15 cm. Shore 72 D.

YelloMaxx Family

The 6" squeegee "YelloMaxx" lies comfortably in the hand and distributes the pressure evenly on its outer flanks thanks to its torsion-resistant construction.

YelloMini Family

The mini squeegee is particularly suitable for all fine work on cars, trucks and motorcycles. Available in all degrees of hardness.

YelloMini „Hang-Loose“

The perfect squeegee to apply vinyl at „undercut areas“, such as tight-fitting headlight frames, body gaps or fender joints! Available in version with 45° angle and 90° angle.

Yel-Lo Plek / Plek Blade

The special shape is designed so that you can turn the squeegee in one hand and so can also press edges slowly without damaging the material.

YelloFlex / YelloFlex Shape

The thin squeegee with rubber lip is just 2mm thick! Thanks to the rubberized lip (1.6mm thick), it is ideal for "sensitive" vinyls and all uses in signmaking where you have to be extra careful. Available in sizes 3, 4, 6 and 12 inches.

YelloBig 12"

Our 12" squeegee „YelloBig“ was specially developed by our team for use in large-scale applications.

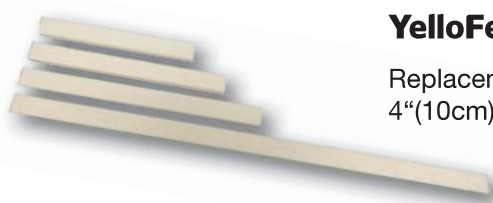

30WrapGuide

With this 30 degree squeegee stencil and the matching, water-proof EasyDot WindowDry, you can quickly and easily draw a „cheat sheet“ on your squeegee.

YelloFelt Grip Family

Felt squeegee with interchangeable replacement felt strips to apply pressure selectively on uneven areas or to squeeze punctured bubbles. All our felt squeegees are of course also perfectly suitable for any wet application.

YelloFelt Lip

Replacement felt lips for your YelloFelt Grip. Available in four sizes: 4“(10cm), 5“(12,5cm), 6“(15cm), 12“(30cm).

FeltBloc Family

Solid felt squeegees to apply pressure selectively on uneven areas or to squeeze punctured bubbles. All our felt squeegees are of course also perfectly suitable for any wet application.

YelloTwin SampleBox 16 pcs.

Our YelloTwin SampleBox includes all Lips in every degree of hardness and the appropriate wings.

YelloWings SampleBox 2.0

Due to a product change of our YelloWings Family we have created a ‚Sample Set‘ for you, if you don't know which wing is best suited for your work.

Squeegee Set ProWrap

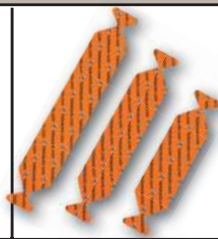

The Squeegee Set ProWrap includes all our Squeegees from the ProWrap line. The different colors signify different hardnesses.

YelloWings SlimSkin MicroFine

For finer surface structure for sensitive films. Thin coating variant

YelloWings BigBuffer MicroFine

For finer surface structure for sensitive films. Suitable for wet application.

YelloWings SlimSkin Betty MicroFine

For finer surface structure for sensitive films. Thin coating variant

YelloWings BigBuffer Betty MicroFine

For finer surface structure for sensitive films. Suitable for wet application.

YelloWings SlimSkin Betty 2.0 MicroFine

For finer surface structure for sensitive films. Thin coating variant

YelloWings BigBuffer Betty 2.0 MicroFine

For finer surface structure for sensitive films. Suitable for wet application.

YelloWings SlimSkin AllStar MicroFine

For finer surface structure for sensitive films. Thin coating variant

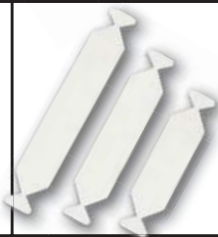

YelloWings BigBuffer AllStar MicroFine

For finer surface structure for sensitive films. Suitable for wet application.

YelloWings SlimSkin Micro

Alcantara-like microfibre fabric, suitable for many smooth surfaces. Thin coating variant.

YelloWings BigBuffer Micro

Alcantara-like microfibre fabric, suitable for many smooth surfaces. Suitable for wet application.

YelloWings SlimSkin Betty 2.0 Micro

Alcantara-like microfibre fabric, suitable for many smooth surfaces. Thin coating variant.

YelloWings BigBuffer Betty 2.0 Micro

Alcantara-like microfibre fabric, suitable for many smooth surfaces. Suitable for wet application.

YelloWings SlimSkin AllStar Micro

Alcantara-like microfibre fabric, suitable for many smooth surfaces. Thin coating variant.

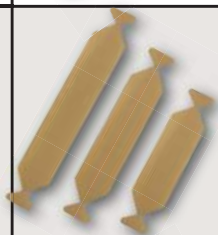

YelloWings BigBuffer AllStar Micro

Alcantara-like microfibre fabric, suitable for many smooth surfaces. Suitable for wet application.

YelloWings Felt

Felt cover for all coarse pored surfaces.

YelloWings Teflon

This wing increases the gliding properties of your squeegee many times over.

TeflonPad 30 cm

Self-adhesive Teflon pads.

PolyPad 30 cm

PolyPad replacement strips for the YelloBig.

YelloWings SlimSkin Poly

The elastic polymer is extremely resilient and very durable.

YelloWings BigBuffer Poly

This padded version is particularly suitable for wet application.

YelloWings SlimSkin Betty Poly

The elastic polymer is extremely resilient and very durable.

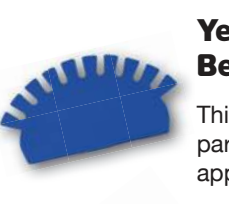

YelloWings BigBuffer Betty Poly

This padded version is particularly suitable for wet application.

YelloWings SlimSkin Betty 2.0 Poly

The elastic polymer is extremely resilient and very durable.

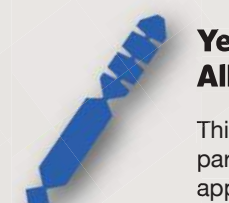

YelloWings BigBuffer Betty 2.0 Poly

This padded version is particularly suitable for wet application.

YelloWings SlimSkin AllStar Poly

The elastic polymer is extremely resilient and very durable.

YelloWings BigBuffer AllStar Poly

This padded version is particularly suitable for wet application.

YelloWings MicroFine Camo

YelloWings MicroFine in camouflage design.

YelloWings MicroFine PinkLeo

YelloWings MicroFine in pink leopard design.

APE T-Buffer

The multi-layer, extremely resistant HiTec material turns your „normal“ squeegee into a PPF tool.

YelloStripe Felt

Felt replacement strips 3 meter.

YelloStripe SlimSkin MicroFine

MicroFine SlimSkin replacement strips.

YelloStripe BigBuffer MicroFine

MicroFine BigBuffer replacement strips.

YelloStripe SlimSkin Micro

Micro SlimSkin replacement strips.

YelloStripe BigBuffer Micro

Micro BigBuffer replacement strips.

YelloStripe MicroFine Camo

MicroFine Camo replacement strips.

YelloStripe MicroFine PinkLeo

MicroFine Pink Leo replacement strips.

ProWrap Mini Fun Family

The Fun-Squeegee for your keyring. There hasn't to be serious sense all the time - sometimes „just fun“ is enough :)

TimberMaxx

The TimberMaxx Series is perfect for window applications / tintings and for all even surfaces! Available in different sizes: 30 cm, 40cm, 50 cm, 60 cm, 70 cm, 80 cm, 90 cm, 100 cm, 120 cm, 140 cm und 165 cm.

TimberMaxx Atis 50/75/100

XXL squeegee including spirit level and cutting bar. Available in three different sizes: 50 cm, 75 cm and 100 cm.

TimberMaxx Atis Lip

XXL squeegee including spirit level, cutting edge and rubber lip. Available in three different sizes: 50 cm, 75 cm and 100 cm.

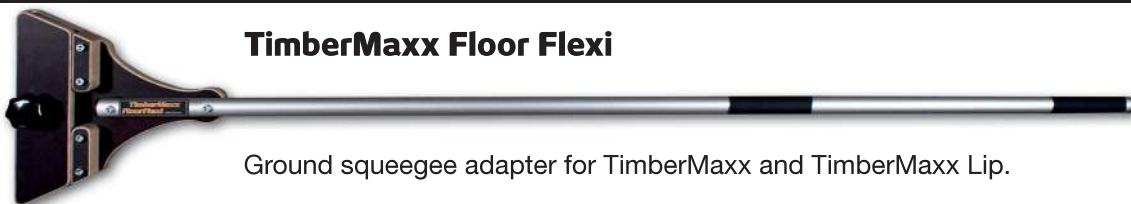

TimberMaxx Lip micro

Wooden squeegee with flexible rubber lip and micro-fibre cover. Available in different sizes: 30 cm, 40cm, 50 cm, 60 cm, 70 cm, 80 cm, 90 cm, 100 cm, 120 cm, 140 cm und 165 cm.

TimberMaxx Frost

The XL squeegee, especially for the bonding of glass decoration foils. Available in four sizes: 20 cm , 25 cm , 30 cm , 40 cm.

TimberMaxx Floor Flexi

Ground squeegee adapter for TimberMaxx and TimberMaxx Lip.

YelloGrip

The YelloGrip is a Grip for 4“,6“ and 12“ squeegee. With this Grip, especially the corners of the 12“ squeegee no longer bend so quickly. The squeegee is easier and cleaner!

Squeegee Dragster

Small damage to the squeegee surface can be „repaired“ in seconds with this practical little helper. The continuously adjustable knife lifts a few tenths off the squeegee if required.

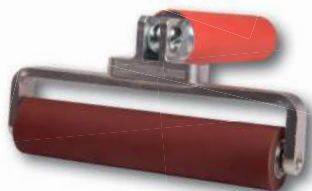

APPLYING

Applying the print can be very annoying in Sign Making. Good that there are "Yellotools". Because through our close contact with our customers all over the world, we manage to design the best tools for Sign Makers, according to your wishes.

YelloRoller Maxx Family

Two different sizes make it possible to work on larger prints and graphics without much effort and without stressing the joints! The rollers have a shore hardness of 65A and are therefore medium soft. Available as YelloRoller Maxx 30, Maxx 60, Maxx 60 TwinHandle and Maxx 60 Duo.

YelloRoller Flexi Family

The High-performance Rollers spare your tendons and muscles with a simple turn on the Handle. If you still like to roll „the old-fashioned“ way or in the „Muscle-protect“-Mode is totally up to you: Just turn the Handle. Available in different sizes: 50 mm, 70 mm, 100 mm, 150 mm, 200 mm.

YelloRoller Flexi Extension

These handle extensions are suitable for all YelloRoller Flexi. The YelloRoller Flexi can be adjusted to three different angles of inclination.

YelloRoller Ziggy

The pressure roller has a large diameter and its weight of approx 700 grams makes the work very effective and energy-saving for you. The rollers are made of rubber and are perfect for gluing, regardless of the flat surface. Thanks to the ergonomic handle, you can work without getting tired.

YelloRoller Plain Family

Our film cutters protect your graphics or the underground with the stable steel rail and guarantee a clean and safe cut. Available in different versions.

YelloRoller Duo soft

All muscles stay relaxed even at bigger signs and graphics. The moving of the roller is still flexible and pretty direct. The soft roller is suitable for slightly uneven surfaces. Width: 50 mm and 150 mm.

YelloRoller Duo hard

All muscles stay relaxed even at bigger signs and graphics. The moving of the roller is still flexible and pretty direct. The hard roller is perfect for very smooth surfaces. Width: 50 mm and 150 mm.

YelloRoller Eco

The cheap alternative. Due to its low weight and compact design, it fits in every bag. 10 cm width and 115 g weight.

YelloThin Foam Wheel

The perfect pressure roller for extremely structured surfaces. The roller is perfect for larger vehicle thicknesses or for wall joints in wall foiling. With a roll width of 13 mm you are well equipped!

YelloRoller Rubber Wheel

The perfect pressure roller for deep beading (e.g. on car doors) with a round rubber profile. The width of the roller is approx 7 mm.

SignTweezer Family

Tweezers for a quicker, easier and more accurate weeding! Available in different versions.

SignTweezer Bloc

Get your SignTweezer Bloc, suitable for our SignTweezer. It has space for 5 of our various tweezers. So you always have everything in place and easy to handle.

SignTweezer Bloc Set

This is the ultimate add-on to your signmaking tweezers - the TweezerBloc. It holds all our five different Tweezers in a safe and convenient way.

YelloHook

A fine barb on a cranked but highly stable holder. The YelloHook is the ideal tool for lifting and weeding of plotted flex and flock foil.

YelloPen Family

The bubble popper that look like a pen! All YelloPen have interchangeable needles, an ergonomic ballpoint pen shape and a perfect needle guide on the metal shaft.

FlipperPen

Retractable Bubble Popper. The extendable function allows larger distances and a greater angle for popping than a standard bubble popper.

EasyWeed Powder

The all-organic Powder makes the fine contours perfect visible. It disappears again without leaving any residue.

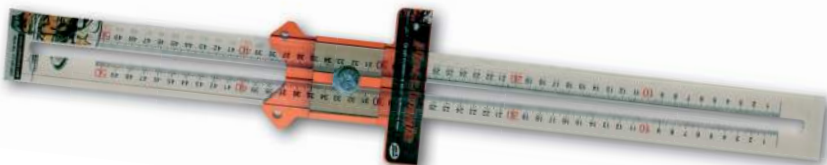

EasyWeed Ring

The large plate for holding punches and other film scraps can be comfortably carried on each finger of the hand with its adjustable Velcro fastener and kept within reach of the tweezers or weed needle. Exchangeable pad!

PrintJoggle

Press the inside corners of the PrintJoggle against the sign corner and guide the corners of the print under the plexiglass panes of the joggle. The printed scale now shows exactly the position of the outer edge of the sign.

PlottJoggle

The ingenious alignment aid for plotter graphics! Adjust once - never measure again.

HeavyHolder

Specially balanced weights with felt and grip rubbers for „accordion bonding“ on signs. The HeavyHolder is 30cm long and about 2.6kg in weight.

YelloApplication Set

In this application set we have packed all the tools you need for perfect and easy application!

Window Graphic Application Set

With our genius tool combination you can apply even large graphics to all windows.

LaserLion Green

With the LaserLion green from Yellotools there is no more marking, drawing or wet gluing - the car wrapping can even be carried out alone! There is also an additional inclination mode for aligning inclines.

LaserLion Red

With this little wonder weapon, positioning and assembly in professional vehicle wrapping and advertising technology is possible with minimal effort, even on banners and tarpaulins.

LaserLion Tray Single / Double

You already own a WrapLaser version from Yellotools and all you need is the right mount for one of our new LaserLion Red or LaserLion Green, which you can find here. Optionally for one or two lasers.

WrapTower

Customize your tool tower individually by selecting the various tool modules to suit your jobs and preferences based on your required tools.

Example image

LaserLion SignSet Green/Red

The set includes:

- LaserLion Base (base plate)
- LaserLion Bar 200 (2m profile)
- LaserLion Tray Single (laser holder)
- 1 x LaserLion Green or LaserLion Red (laser head green or red)

LaserLion WrapSet Green/Red

The set includes:

- LaserLion Base (base plate)
- LaserLion Bar 200 (2m profile)
- LaserLion Tray Double (laser holder)
- 1 x LaserLion Green or LaserLion Red (laser head green or red)

Appfix

The perfect application aid with stop nozzle. Available from 70cm to 160cm. Ball-bearing mounted rollers for ultra-smooth delivery. Includes fastening brackets.

Appfix 130 Flexi

This ingenious aid can be turned on a special fitting so that you can turn the film straight towards you, pull it out to the desired length and apply it conveniently. The result: a stable construction that can be rotated 360 ° and becomes an absolute all-rounder.

Appfix Roll 'N' Cut

Proven Yellotools unwinding technology extended by the functions cutting and measuring. Available in three different sizes!

Appfix Racer 1x2 m

Modular rail system with application bridge. For almost every table size.

Appfix Counter

You would like to know how many meters of foil you have already unrolled from your roll? You can do this with our foil counter AppfixCounter. It can be attached to all new Appfix or Appfix Flexi models. The 5-digit analog display (cm) promises highest accuracy.

LABELING

Labeling and Car Wrapping problems are a thing of the past with Sign Making Tools from Yello-tools. If, for example, you get annoyed with the rivets during the foiling of vehicles or Sign Making Signs, you'll love our YelloDouble Pen and the YelloBrush.

EdgeWrap Cutter

Template for sign and furniture corners to wrap vinyl seamlessly over edges, either overlapping (with a 45 ° single wing) or exactly edge to edge.

APE CornerTool

Multifunctional tool for various furniture foil applications. The two angles (90° and 45°) and the two radii (3 mm and 6 mm) on the outside of the CornerTool can be used as a perfect template

EasyScore

With the EasyScore you can cut half-circles in 20, 30, 40, 50, 75 and 100mm easily

IvoCut Family

A Ruler with a handle and various radii, for no wasting of silicon or window putty.

EvoCut Family

11 different shapes secure a safe and fast Work at Vehicles, Signs or any „free-hand-application“.

Hole n' Cut / Hole n' Cut Eco

Drill hole and edge cut template in one tool. A scale from 15mm to 40mm will help you to either make a straight cut or drill holes at an even distance.

Hole n' Cut XXL Eco

The Hole ,n' Cut XXL Eco offers the possibility to measure drill holes and edge cuts up to 80 mm distance, twice as much as its predecessors. The tool is made of cast, transparent acrylic glass and therefore offers a perfect view of the workpiece.

Hole n' Cut XXL Eco Set

Hole ,n' Cut XXL Eco - the ultimate template with the 2-in-1 feature. Available as set incl. knife and deep hole marker in suitcases!

SpeedMag HD

Powerful Magnet - Allows transfer work unassisted.

FlatMag HD

Powerful Magnet with a lower profile pull-out solution.

Gene-ius Mag HD

Powerful magnet with a lower ergonomic pull-out profile.

BigMag HD

XL Holding Magnet - Strong magnet for large digital prints.

LongMag HD

Strong holding magnet with 15 cm long handle.

MagPatch 40 | 66 | 88

Microfine Patch for our magnets, the perfect protection for your films and paints. Three different sizes: 40 mm, 66 mm und 88 mm.

JoniMag Strip

The magnetic chain holds with either 3, 4 or 6 strong, rubberized holding magnets on each vehicle which is of course magnetic. Available in three differenz sizes: JoniMag 3 with three magnets, JoniMag 4 with four magnets and JoniMag 6 with six magnets.

GeckoPatch

Make non-magnetic surfaces like windows, fiberglass assemblies, aluminum hoods or plastic doors „magnetic“. Press our GeckoPatch on and continue to use your magnets as usual. Our sizes S, M and L are especially suitable for smooth surfaces, whereas the GeckoPatch Flexi can be used „around the corner“.

GeckoPatch Power

The Gecko Patch Power offers extreme adhesive force on non-magnetic surfaces such as glass panes. 3 times the adhesive force thanks to 1 mm thick sheet metal

BlackMamba

Our „Black Mamba“ is a flexible magnetic chain for large hinge connections and a super flexible „free hand radius ruler“! Available in four different lengths: 26 cm, 44 cm, 68 cm and 98 cm.

APE MagCarpet

Special magnet for curves on the vehicle with eight strong magnets!

WallRoller Family

Vinyl Application Roller Tool for Wall- and Floorgraphics.

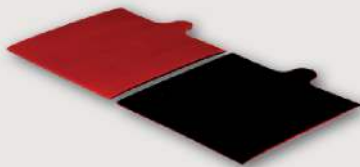

BoostBox Bucket

The forced ventilation system simply sucks heavy solvent fumes from the surface and removes them from the fresh print. You can either transport the air directly into your rooms (which is not recommended ...) Or use a standard exhaust hose to transport it outside.

X-treme Mat

This material is absolutely AMAZING. Due to its unique capillary effect, foils, plates and even entire tools can adhere to smooth surfaces (glass) and be removed again and again without leaving any residue. Available in two sizes: 40cm x 40cm, 40cm x 80cm.

GlasPad X-treme

The GlasPad X-treme patches work almost like magnets on glass. Due to their unique capillary action, they are self-adhesive.

PrintEx Pen

Thanks to its special formula, you can remove ink stains or fix other minor errors in your digital print in no time at all.

YelloSlip Cut

The edge cutter for foils on panes, on window seals or on sign materials, with which you can set the edge cut from 0 - 125 mm, press the guide bolts into, for example, a pane frame or pull them along the outside of a sign material.

YelloPurse

17 Tools in pink. The set includes: 5x SpeedClips Pink, 1x ProWrap Pink, 1x ProWrap Peekaboo, 3x YelloBlade Pink, 3x WrapFinger, 1x YelloWings Felt 4" (5er Pack), 1x YelloWings SlimSkin Micro 4" (5er Pack), 1x YelloMini Pink, 1x YelloCut HD Pro.

YelloBrush | YelloBrush Needle

Rivet brush and bubble popper tool for optimal pressing of foils and rivets.

YelloBrush Basic

For optimal pressing of the film on rivets or difficult surfaces.

EasyApplyFluid

The application liquid with two different „shift times“ and two different flavors.

APE FoamPotion

Perfectly coordinated bonding aid for stone chip protection foil (PPF). Available as 1 litre (results in about 20 liters of bonding liquid!) and completely biodegradable.

AngelCutter

Edge Trimmer for thin cuts on the edge of your sign.

EasyApply-Fluid to go

Our proven EasyApply fluid available as a „to-go“-bottle.

SensorCut Orbit

Circle cutter without center needle from 5 - 150 mm.

YelloPen

Piercing tool for bubbles under foils.

Antistatic Fluid

Antistatic special cleaner for dust-free work!

REMOVAL

Tools for removing prints, graphics, and vinyl.

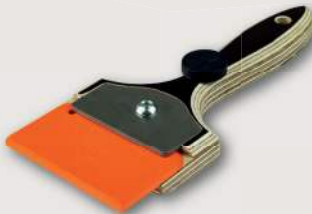

YelloBlade Orange

The quick and effective vinyl removal tool that is safe for all surfaces! It's super cheap, easy to grip and fits easily in your pocket / tool belt!

YelloBlade Pink

The quick and effective vinyl removal tool in pink that is safe for all surfaces! It's super cheap, easy to grip and fits easily in your pocket / tool belt!

YelloBlade Handle

The ergonomic handle with integrated magnet for our YelloBlade!

YelloBlade Egg

The small egg-shaped, palm-sized handle for our YelloBlade!

YelloBlade Grip

The premium rubber profile for our YelloBlade to protect you from any blisters.

YelloBlade Grip Set

The YelloBlade and a premium rubber profile in a set.

YelloBlade 360

Easier lifting to remove films without scratching with a round blade.

YelloBlade Handle 360

The foil removal tool YelloBlade Handle 360 now contains the YelloBlade 360 in a round shape and also does not leave any scratches or damage. The corresponding handle fits ergonomically perfectly in the hand.

PlateLine Remover Black

The PlateLine Remover black makes removing company logos and name tags even easier thanks to its largely ergonomic shape.

RapidRemover

Vinyl Remover - Due to the synchron movements and the intelligent tube system, we combine the solid grid of the material with the strong leverage of the ratchet.

MOUNTING

In advertising technology, the assembly of advertising signs and banners is a daily task. We at Yellotools take this as an opportunity to make the construction as easy as possible for sign makers. That is why our team has developed many useful assembly aids and tools for measuring and aligning for you.

FlatSignScale

The materials used for the FlatSignScale enable it to be laid flat on a sign or vehicle. The surface can be written on and dry-wiped. A pencil sharpener and another labeling field are also integrated.

FixxSignScale

Self extending steel measuring tape - The super flat steel tape lies absolutely flat and stays straight even at one meter without tipping over.

DigiSignScale

Digital measuring tape with highest measuring accuracy.

WindowWizard

Self-adhesive ruler for the inside of a car or shop window pane.

YelloMeter Family

Tailor-made, innovative scale system in five different base materials, each with three different scales.

MagTape Ruler

Magnetic measuring tape for all non-magnetic surfaces.

MagTape Ruler Power

Magnetic measuring tape with extreme adhesive power on non-magnetic surfaces in three sizes.

EasyNooks

The EasyNooks e.g. - two 90 degree angle brackets made of steel, finished with our X-treme mat - they adhere perfectly to the inside of the frame on the right and left and you can simplify the measurement of the area with our YelloDistanceCheck laser rangefinder.

SignLevel ALS

The perfect tool to customize your sign. Attaching it becomes so much easier. It has an analog level board to make aligning signs easier!

SignSetter ALS Family

Attach signs easily - and correctly - with the „SignSetter ALS“ single! It has an analog display to make aligning signs easier!

YelloDistance Check

Precise measurement with laser light for exact determination of lengths. The area and volume function allows the acquisition of room sizes e.g. for the calculation of material quantities. 3 measuring levels switchable: front, rear and pin.

EasyDot Family

The admired Marker for deep holes in thicker sign materials and many more.

EasyUp HD

Suction lifter for carrying Dibond or heavy boards.

Screw Family

Screws with an extra ‚big head‘ or an automatic screwdriver which makes it possible to let the screws disappear all the way in the surface of the sign - you can find it in our onlineshop!

AngelRacer

Trim protruding foils and deburr sign edges in one step. The edge width can be influenced depending on the angle of incidence of the cutting surface. The hardened blade is both adjustable and replaceable. Ideal for aluminum composite, acrylic and rigid foam panels.

P-Glas Twin

Cut and deburr acrylic or plexiglass in one tool.

P-Glas Twin Set

Whether measuring, marking, scribing, „cutting“ or deburring ... With our set you are perfectly equipped and you will not lack anything when it comes to your use on plexiglass / acrylic glass.

P-Glas equipment

Ceramic SpareBlade for the P-GlasTwin or Steel SpareBlade for the P-GlasTwin - you can find it in our onlineshop.

P-Glass Refiner

The P-Glass Refiner is a small hand-held gas burner with a variable spacer, which can be adapted individually to the respective acrylic glass thickness.

Yello V-Trim

The V-shaped trimmer effortlessly deburrs steel, aluminium, copper, brass, etc. up to a thickness of 10 mm on both sides in a single operation. The durable blade is of course interchangeable.

SignTrim Family

Deburring tools with rotating blade.

EasyPress

Attach banner eyelets quickly and easily.

EasyEdge

A tool that punches through panels, laminate, paper and more! It's being delivered without the blade!

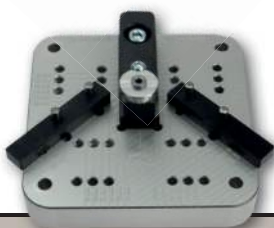

EasyEdge Flexi

The stable hand punch effortlessly rounds corners of Dibond, Forex or Polysterol. Available in two different variants: R6 or R10.

EasyEdge Corner Crew

The specially hardened punching knives are extremely robust and can be easily exchanged. Effortless punching in rigid foam and aluminum composite panels (Dibond), PVC, laminate, paper and much more. Available in different versions.

EasyDrill Mini

Drilling template for materials up to 6 mm thickness. The drilling template made of hardened tool steel holds your drill exactly where you want it to drill and not a millimeter next to it.

Banner equipment

Everything about banner equipment - available in our online shop.

BannerFix HD

A 60 cm long banner holder that can be attached to almost anything with the included suction cup!

SignPad Set HD

Fast mounting, holds on to all smooth surfaces, high capacity - up to 20kg (44lb) per „Pad“, weatherproof and universally usable.

YelloGrommets Chrom / Messing

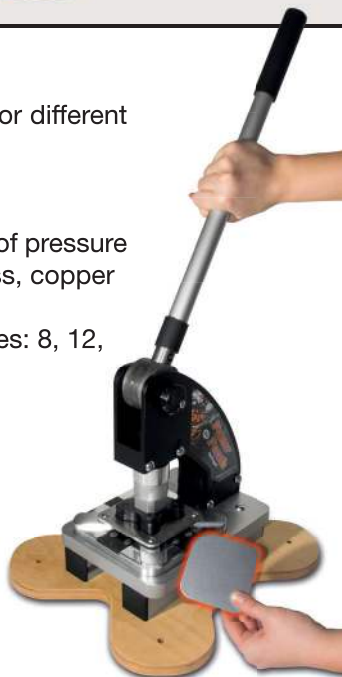

Even cutting eyelets for Easypress in brass and chrom. Diameter: 11mm.

PowerPunch

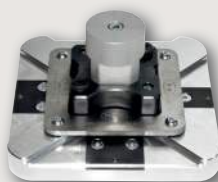

Stable punching tool for different punching modules.

- More than four tons of pressure
- Cuts aluminum, brass, copper and even STEEL
- Four different radiuses: 8, 12, 16 and 25 mm

PowerPunch Corner R40

Round corners with 40 mm radius.

PowerPunch Corner 4

The heavy-duty CornerRounder cuts radii of 8mm, 12mm, 16mm und 25mm.

PowerPunch Hole

Suitable hole modul for the PowerPunch with three different hole sizes: 4 mm, 6 mm and 8 mm.

PowerPunch Sets

- Corner R40 Set
- Corner 3035 Set
- Corner 4 Set
- Hole Set

PowerPunch Corner R3035

Punches with only one insert plate two different radii: 30mm and 35mm

PowerPunch Hole Exchange

Available in four different sizes: 4 mm, 6 mm, 8 mm und 10mm.

STORAGE

Vinyl rolls are often not stored properly. You should change that to protect your slides and work faster. With the right storage system for vinyl rolls you have the right roll always within reach.

Vertigo-System

The probably most innovative and flexible film storage system for sign-makers and digital printers! Whatever you want to store - no matter the weight, the length, the height & how far from each other:

Vertigo is made out of "system bars" and movable "brackets" to store your foils on. Brackets have different "abilities" according to how you want to store your films.

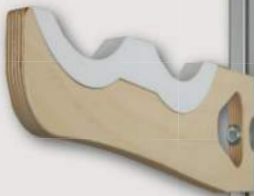

V-Bracket Tube

Easy as pie storing and taking out films with our standard-bracket.

V-Bracket Roll n' Cut

Put the dispenser on every desired position with this bracket.

V-Bracket WaveHolder

No pressure marks on film rolls due to integral foam inserts.

V-Bracket EasyReach

Easy as pie storing and taking out vinyl of even long and heavy rolls. Stepless adjustable.

A-Tube Stopper

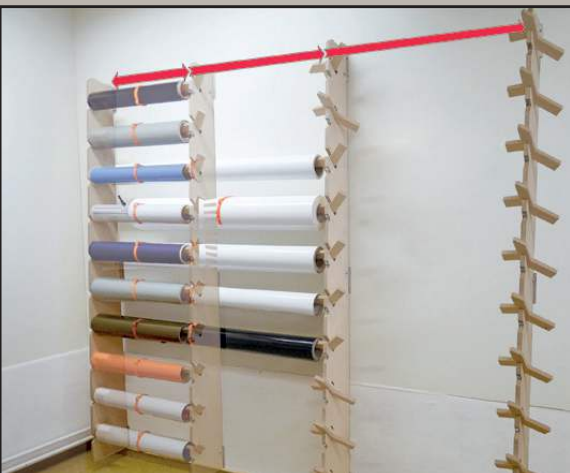

Stoppers for foil roll holders Aluminium bars. Makes roll-shifting impossible.

YelloMonkey 6er/12er

The simple to mount wooden brackets "grab" prints with a little wooden sphere and keep them safe while drying, outgassing or simply "parking". Available is our "print/foil-monkey" For 6 or 12 prints.

CosyRack EasyReach

It is a vinyl storage system you can put together individual.

You can combine the Racks also with the neat TreeMaxx MultiPlug - so you can store Rolls of different Lengths in just one CosyRack as well! How cool to have a modular concept!

CosyRack Tube

It is available in varying width and adjustable in height, low priced and a great opportunity to archive your articles.

The very stable glued wood construction holds a load up to 200kg (440lb). Same as with the other racks you can decide if you want to purchase a whole System with included aluminium tubes or simply the laterals with holders.

VertiGo Mobil Stepless

A storage rack with 110cm (3.6 feet) length! Holds up to 15 rolls!

The VertigoMobil combines the positive characteristics of our mobile film rack TREEMAXX with the flexibility of the VertigoRack system - i.e. the adjustability of the distances between film to film. So this rack is also ready to store each film roll perfectly and space-saving. The VertiGo Mobile is available in three versions: 110cm, 140cm and 165cm

YelloSpare Brackets

For coreless spare vinyls

The YelloSpare Brackets are pretty versatile, since you can mount them either upright on any wall or even flat underneath your worktable.

YelloSpare Rack

YelloSpare Racks are designed to host eight coreless filmrolls and work awesome as a wall-mounted racks. However you want to store them - on the wall, rollable on the floor, under your table - we have the right device for you.

TwisterStripe Wall

Foil storage on the wall - Whether horizontal or vertical, just decide for yourself!

TwisterWallmount

Store up to 9 rolls (max length: 600mm) easy, safe and comfortable on your wall. Every cross "carries" up to 20lbs. Size: L=550mm * W= 550mm * H= 260mm.

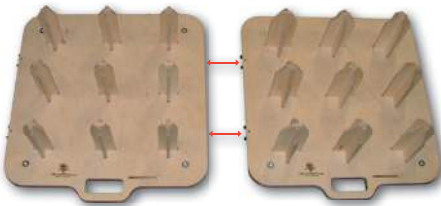

Twister

Make an end to domino effect in your foil stock. Our Twisters keep your rolls upright and neat next to the plotter. Available in 4 versions for 3" and 2" film roll cores. Size: L=550 x W=550 x H260mm. 11,2lbs. "Carries" up to 400lbs.

TwisterMaxi 16

The "big one" of Twisters. Stores up to 16 film rools in different widths. With 5 high-performance castors. Base plate: 720 x 720 mm Weight: 19lbs. "Carries" up to 500lbs.

TwisterClick

With its patented connection system you can easily click your Twisters together to a "Twister-train" Size: W=550 x L=550 x H=260mm. "Carries" up to 400lbs.

TwisterRondo

First round Twister. For 12 rolls of 2" OR 3" cores. Size: diameter 635mm x 635mm H= 260mm. "Carries" up to 400lbs.

TwisterMagnum

Stores 12 vinyl rolls. On castors. 360°rotation plate. Size: L=660mm x W=660mm x H=300mm. "Carries" up to 400lbs.

Twister Single

This little transport dolly in 2" and 3" was built to roll your heavy media right toyour "Turnstation".

TwisterStripe Floor

Slim solution for film storage. The rollable Floor rack comes with our high-performance swivel casters „made in Germany“.

Twister Paket

Attractive set for 2" OR 3" rolls, including fitting MediaCards (9x) & SpeedClips (9x SpeedClip & 9x SpeedClip XXL).

TwisterMaxi Paket

Attractive set including: 1x TwisterMaxi (2" o. 3"), 16x SpeedClip, 16x SpeedClip XXL, 78x SpeedPatch single, 6x MediaCards (2" o. 3").

Twister VEGO Bracket

With the Twister VEGO Bracket you can store 18 film rolls on only 0.3 square meters of space! Available in two sizes: for 2" film cores & 3" film cores.

Treemaxx MultiPlug

Makes storing of rolls 300mm shorter than maximum rolls possible.

YelloBoard Rack

A double-sided version (available with or without casters) as well as a space-saving single-sided wallmounted version. Both models are extendable to any desired length and, due to the patented quick release fasteners, shipping is pretty inexpensive as well.

The basic model is 190cm (74.8") wide, and can easily store sheets up to 300cm (10ft.) in length.

YelloSpare Box

This clever construction allows you to store up to 28 coreless vinyls in any possible way.

It's up to you, if you want to store your precious mishmash at your Shopwall (WALL), fixed on the shopfloor (BOX) or even as a flexible cart (DOLLY)

Twister VEGO Bracket

Put this „double cross“ onto the film roll of a Twister - this doubles the storage capacity of your film roll holder.

TwisterCliffhanger 3"

The „Mammoth-Rack“ among the Twister-Family.

Stand-alone allows the Cliffhanger storing up to 48 Rolls (max. 60cm). Of course - it's a modular System. So, you can place them right next to each other.

Due to this, you are able to build an almost endless Vinyl-warehouse.

TwisterBloc 3"

This rollable “Upright-Twister” carries a total of 48 Rolls, up to 63 cm (24.8”) at narrowest room.

Equipped with Stop-Casters „Made in Germany“, it brings perfect visual control to your vinyl stock.

Available for 3” cores. Holds up to 400 kg (881 lbs).

EasyMedia Lift

Adhesive film roll lifter for effortless work.

The extremely sturdy stainless steel plate lifts even the heaviest film rolls, and the lightweight aluminum handle ensures perfect ergonomics and leverage.

SpeedTimber Rack

Dimensions: 105cm x 60cm x 190cm (L x W x H)

Space for 42 rolls// 20 rolls up to 60cm/23,62” and 22 rolls up to 120cm/47,24” (15 kg). Maximum load capacity of 250 kg

Treem maxx EasyReach

One-man operation due to special lifting technology. Installed meter counter helps you to cut films exactly to the desired length.

- Stores up to 14 rolls
- Rigid stand
- Holds up to 400 kg (881 lbs)
- Made in Germany

TreeMaxx EasyReach Pro

With our all-new closure technology, 's pretty simple to reach your media rolls. Just grab the Rolls in the middle – lift them up and done!

The same if you want to restore them again: Just place the core in the left-hand wood-pin and easy slip it in the right-hand Flip-Bracket! That's it!

Holds up to 400 kg (881 lbs).

TwisterTable

A twister for under the table.

Maximum capacity: 16 Rolls in 60cm (24"). Holds up to 160 kg (353 lbs). 2" core version available as well.

TreeMaxx Tube

This is our "BigBoy" with easy rolling storage of up to 15 Rolls of media up to 5.2 feet wide!

The heavy-duty construction of dense Birch Multiplex material, one of the hardest hardwoods, makes Tree-Maxx as tough as it is good-looking.

TreeMaxx comes in 4 ready to assemble sizes and is fully A-Tube compatible.

- Affordable and space efficient
- Super easy assembly
- Diverse storage options
- Glued-and-screwed construction
- Holds up to 400 kg (881 lbs)

MediaCards 2"/3"/Hook

Take control of the rolls in your shop with our new MediaCards, available for 2- or 3-inch rolls, with large easy-to-read spaces for a variety of useful and time-saving information.

SpeedClip 2.0 (single)

The clips that hold your vinyl rolls in place without leaving marks or paint residue on the product!
Holds rolls up to 50 meters (164 feet) in length! L or XXL

SpeedClip 2.0 (50er Pack)

Foil roll holder 50 pieces in a bag - optionally L or XL.

SpeedClip PINK single

The clips in pink version that hold your vinyl rolls in place without leaving marks or paint residue on the product!
Holds rolls up to 50 meters (164 feet) in length! L or XXL

SpeedClip PINK (50er Pack)

Foil roll holder in pink 50 pieces in a bag - optionally L or XL.

SpeedPatches

Perfect Protection of your medias. For retrofitting our proven speed clips.

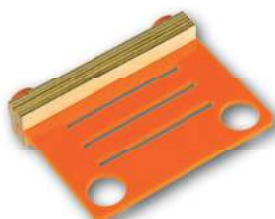

MediaMeter Star

Just plug the unit in a core of a vinyl roll and read on the scale how much vinyl is still left on the roll. It's really that easy. The best part of our improved MediaMeter Star is, that you now can easily put together your individual scale-set online.

MediaLid

A solid 3" lid with an eraseable or changeable sticker and a handy parking magnet.

Lean MediaMag

The heavy-duty magnets holds this genius "park-assistant" right where you need it. The Lean MediaMag offers space for three MediaCards.

CLEANING

In our Sign Making Shop we offer you the best detergents for Car Wrapping, even for antistatic cleaning. Because vinyls or digital prints on your car or an advertising sign will adhere dependably only on a clean, grease-free surface.

PowerCleaner 6"

The space-age, high-tack cleaning roller made off steel, that removes static and dust. Power Cleaner 6" in aluminum or plastic.

PowerCleaner 12"

The space-age, high-tack cleaning roller made off steel, that removes static and dust. Power Cleaner 12" in aluminum or plastic.

PowerCleaner Pad

Cleaning Pads for our PowerCleaner.

PowerCleaner Pad Holder

The high-efficient „Park-Bracket“ for Pad's and Rollers. That's how you store your PowerCleaner efficient, clean and professional!

Antistatic Fluid

AntiStatic Fluid is made of surface-active and anti-electrostatic substances based on vegetable fat acid diluted in aqueous solution.

Antistatic Set

The Set includes: PowerCleaner 12" Alu, PowerCleaner Pad 12", Antistatik Fluid C 250ml, ProWrap Antistatik, Koffer, FREE Cutting-Mat Antistatic Muster, FREE PadHolder.

YelloDusty

Removes dust more cleanly than any other wipe. Yello Dusty is ideal for digital printing, vinyl graphics, vehicle vinyl/paint preparation – and even cleaning your computer monitor!

GeckoClean 250 ml

Dust Remover for our X-Treme Mat Products.

YelloOrange Aerosol

Citrus cleaner/degreaser which removes even the toughest adhesives.

YelloJack

100% isopropanol cleaner to degrease surfaces.

YelloFluid SurfaceCleaner

Vinyl and car wrap pre-cleaner in available in 3 different forms.

NanoEx

PH-neutral cleansing milk dissolves up to 98% of all commercially available Nano-sealing.

YelloFrog

It's the perfect all-around cleaner for vehicles, your shop or even your home. Plus it's super- effective and environmentally-friendly.

EasyClean Set

The cleaning-to-go set consists of YelloOrange in a 35ml aerosol can, one of the great YelloBlades plus a sheet of the stiff but soft YelloFleece Pro

YelloQuickStick

With the paint test pen „YelloQuickStick“ you can test the surface tension in next to no time.

Yellowipe Air

„Yellowipe Air“ soaks up twice as much water as usual towelettes, because of its special structure!

YelloFleece Pro

Extremely wet- and tear-resistant cellulose cloths. 60 cloths in dispenser.

FACTORY EQUIPMENT

Whether car, boat, wall, window or building - your Sign Making Tools should always be there where you need them. We've met this challenge and developed the perfect Tool Bag System for the Sign Making industry.

YelloGear All-in Set

In this box you will find all components from our YelloGear series.

YelloGear BaseSet

These two sets are a good starting base for a variety of configurations. The 9-piece set differ only in the method of wearing. While the „Sash-Set“ can be worn around the torso with a velcro sash, wear the „Belt-Set“ around the hips with the velcro belt included.

YelloGear LineSet

With these two sets you keep your tools even closer! The standard equipment of the two sets includes MagPatch, Quiver, BigPouch, TripleMini, TriplePouch as well as either the YelloGear Belt or alternatively the YelloGear Sash.

YelloGear RobinBoes Set

Wrap professional Robin was instrumental in the development of the overall concept and he introduces his personal combination. The YelloGear set „Robin Boes“ consists of the single elements Sash, Quiver, BigPouch, Triple Mini, Triple Pouch and YelloGear Base.

YelloGear Base

This base plate in the size 30 x 26 cm is made of sturdy sewn industrial high-performance textile and is provided on the outside across its entire surface with the proven loop fabric. On the back there is a 40 mm hook-and-loop strap that attaches the base to YelloGear Sash, YelloGear Belt or WallBracket.

YelloGear Belt

It is simply placed around the hips without straps and hooked thus remaining flexible with the ability to rotate at any angle. The top-side fly-on application allows you to pad and secure all YelloGear modules. It's just fun to upgrade and work with this system. The belt is 120 cm long and 7.5 cm wide.

YelloGear Sash

Infinitely adjustable shoulder strap with full velcro applications. This belt serves either for the direct placement of individual tools or as a carrying system for the base plate „YelloGear Base“. Of course suitable for right- and left-handers. The sash offers high wearing comfort, fatigue-free working and keeps your tools always within reach.

YelloGear TriplePouch

The TriplePouch is a single bag with a sturdy hardshell back measuring 95 mm (width) and 175 mm (length). It has three sewn-out individual slots for knives, tweezers, bubble poppers, pens and more. The slots are suitable for holding round tools and pin-like objects up to 17 mm in diameter.

YelloGear PocketBlack

YelloGear PocketBlack and YelloGear PocketClear are lockable tool bags for holding multiple squeegees, cell phones, rangefinders, multiple cutters or pens and much more.

YelloGear PocketClear

YelloGear PocketBlack and YelloGear PocketClear are lockable tool bags for holding multiple squeegees, cell phones, rangefinders, multiple cutters or pens and much more.

YelloGear Quiver

Funnel-shaped hard shell for small, sharp tools like Knives, Cutter and More.

YelloGear BigPouch

Even larger objects like screw packs or multiple squeegees at once can be attached thanks to the large velcro bag BigPouch.

YelloGear SmallPouch

The SmallPouch is - as the name implies - a small single bag with sturdy hardshell back and an elastic bag in the dimensions 70 mm (width) and 80 mm (depth). The fabric can be stretched up to 40 mm.

YelloGear ToolBox

A qualitative and stable toolbox for all of our tools.

YelloGear MagPatch

Four strong magnets hold metal handles firmly in place. Thanks to the velcro application, the MagPatch, like the other modules, can be placed and used anywhere on the straps. The effective area is approx. 60 x 60 mm.

YelloGear TripleMini

A sturdily stitched flex plate with three stretch tape holders for cutters, knives, pens, tweezers and other small tools. 85 x 65 mm small, it fits on any of our modules to the YelloStrap Pro.

YelloGear TapeHolder

The TapeHolder is a sturdy steel handle, riveted to a mounting plate with velcro application. All types of retaining clips, such as measuring tapes, handsets and more.

YelloGear SteelPatch

This module of the YelloGear Tool Pouch System allows you to park your wrap magnets where they are perfectly accessible, our Steel-Patches are recommended! A sturdy steel disc of 50 x 50 mm encased in industrial textile.

YelloGear Clipper

With this Clipper, all modules of the YelloGear Tool Pouch System Family can also be fastened individually to your pants or belt. So you can use all modules completely independent of the YelloGear Belt or YelloGear Sash.

YelloStrap Pro

The „Pro“ is an extension of our bestseller YelloStrap and comes with 9 strong magnets. So you can park even more tools on your wrist.

YelloBelt ProWrap Family

Belt-pocket specially made for vehicle wrappers in orange, pink and black. Great features: rivet-free surface, heavy-duty nylon fabric, 8 different pockets, completely closable with velcro, and more.

YelloBelt

10 pockets, highclass quality bag with included belt which length you can adjust.

YelloCase 6

Our new, practical synthetic leather bags with embossed logo for safe storage of your favorite tools. Six flexible strap tabs hold cutters, wrap sticks, tweezers and much more.

YelloCase 20

Our new, practical synthetic leather bags with embossed logo for safe storage of your favorite tools. 20 flexible strap tabs hold cutters, wrap sticks, tweezers and much more.

YelloCase empty

In here everything's organized and keeping it like this is now very easy.

YelloCase 2.0 complete

In this set we have tried to put together a small selection of tools for a perfect start. Whether for measuring, cutting, squeegeeing or deburring signs, hopefully there is something for everyone that will make your heart beat faster and make your everyday work easier.

SignToolBox

A high-quality and stable tool box for all of our tools with great new features such as a new design, a metal plate to attach our magnets, a steel clip for our tape measure, a removable cover with a slot for carrying and also a shoulder strap.

SignToolBox Set

SignToolBox Set - 37 pieces.

YelloBelt ToolSet I

Our popular „ToolBag“ YelloBelt „ offers plenty of space for every tool and is always ready to hand.

YelloPurse

17 YelloTools in pink - a „girls edition“.

YelloCase Blade Set

Just try all the SpareBlades that Yellotools has to offer from our YelloCase Blade Set with the YelloCut Master.

YelloCase Tweezer Set 6

YelloCase Tweezer Set 6 - our special carwrap- and signmaker-tweezers in a set!

YelloCase Z-WrapSet

Our great friend and incredible Wrapmaster Zigrig Tijnelis with Signmakertools Canada showed us his favourite little Toolbox for Car-wrap Applications and inspired us to this Casebox.

WrapStick Set Deluxe

Squeegee pens for professional vehicle wrapping in a high-quality pencil case for safe storage.

CarWrap Set

14-pieces Car Wrapping Set.

EasyCord

Tool holder - A system that always holds your tool in the right place therefore no more painful searching for anything!

EasyCord Plug

Replacement plug for squeegee holder with drawstring.

ProHold

Magnetic bracelet - no more screws, drills or bits in your mouth.

BeltMag

The magnet solution for your belt pouch.

MagTool Tray

In this case, we have designed a high quality and sturdy tool tray with strong adhesive magnets for use on vehicles. In this magnetic tool tray you can easily „park“ your squeegees or cutting tools for vehicle wrapping.

YelloBench Basic

The worktable is dismountable and comes with brackets for your SafetyRuler all around the bench.

YelloBench to-go

The worktable to go.

LeanRuler Bracket

Bracket for safety rulers for wall and sub-table mounting.

CAR WRAPPING

CarWrappers all around the world come to us and tell us what they really need to do a perfect wrap job. Your wish is our command. That is why we are constantly developing new products for Vehicle Foiling and Sign Making that will make your job as easy as possible!

CableFlyer

No more trapped power cables with the help of our new CableFlyer.

HeatCage S Plain

Practical protective cap & spacer for your carwrapping hot air dryer.

WrapGun II

Hot air gun for Car Wrapping and Signmaking.

WrapGun II Set

The perfect complete set for carwrapping professionals with 5% purchasing advantage compared to the single purchase!

WrapGun Case

Storage box for the WrapGun II.

WrapGun Mag

The practical magnet holder for your hot air blower.

TemperScan

Slip-on temperature scanner for the WrapGun II.

YelloTemper ProWrap

This tool offers you the possibility to use the temperature gauge in continuous operation by means of the switch we have installed. This way you don't have to constantly operate the switch to measure the perfect temperature and you have both hands free!

YelloShuttle

Heating and measuring is possible with one tool and one hand in vehicle foiling.

YelloShuttle Set

The YelloShuttle Complete Set. Heating and measuring with one hand during carwrapping.

GladiBelt

Practical hot air gun holder.

WrapJet Easy-Set

The H2O-poor gas mix of our cartridges guarantees a „stutter-free“ gas flame. Ideal for the tricky work of Car Wrapping.

WrapJet Easy SpareTank

Gas replacement cartridge for the WrapJet Easy.

WrapJet HeatGun Head

Hot air attachment for the WrapJet Easy-Set.

WrapJet HeatGun Set

Our practical Carwrapping Set consists of the WrapJet Easy-Set and the WrapJet HeatGun Head.

LowRider

Rollable workshop stool for optimal wrapping of sills, bumpers and wheel arches.

LowRider Extension

The booster seat for our bestseller „LowRider“!

WrapWalk

Secure bonding at vehicles with our „WrapWalk“ platform - expandable in width and height!

WrapStep

Due to the special skid design, the WrapStep can even be pushed into the vehicle with the door open. Rubberized edges prevent damage to the body and vehicle parts.

WrapStep Set

Secure bonding to vehicles with our „WrapStep“ stair ladder. Now available as set

WrapStep Walk

Connection element for our WrapStep variants

LaserLion Tray Single / Double

Mounting arm for one or two laser heads.

WrapTower

Customize your tool tower individually by selecting the various tool modules to suit your jobs and preferences based on your required tools.

Example image

LaserLion SignSet Green/Red

The set includes:

- LaserLion Base (base plate)
- LaserLion Bar 200 (2m profile)
- LaserLion Tray Single (laser holder)
- 1 x LaserLion Green or LaserLion Red (laser head green or red)

LaserLion WrapSet Green/Red

The set includes:

- LaserLion Base (base plate)
- LaserLion Bar 200 (2m profile)
- LaserLion Tray Double (laser holder)
- 1 x LaserLion Green or LaserLion Red (laser head green or red)

YelloGuide Flexi

The ingenious 16-in-1 sign making multi-tool for internal and external distance cuts. With the YelloGuide Flexi you can cut along an inner or outer contour with a distance of 3, 4 or 5 mm.

TaperClip

This funny gadget allows you to fasten all kinds of 3"-cored tape rolls right on your belt or waistband.

YelloLip Cutter

Squeegee insert with integrated BodyGuardKnife cutting shoe for our popular YelloTwin Base.

BumperRacer Set

Template for marking excess film.

DoorHandle Remover

Hook tool for removing door handles.

GrabHandle Remover

Tool for removing headliners and many other attachments.

YelloShear Orbit

YelloShear Orbit - professional, curved shear for car wrappers!

WrapCrib Slim

Lockable mini pliers with geared beak point.

WrapCrib Disc

Lockable mini pliers with geared plate point.

WrapDefender

The WrapDefender is the first safety knife for vehicle flippers with which you can easily cut curves, for example to trim the foil with paper in the wheel house. The easy to change, super-sharp and stainless steel scalpel blade is superior to any cutter blade.

WrapDefender 45R / 45L

Perfect for making cuts in hard-to-reach areas where the handle would be in the way. With a left or right bend.

WrapDefender Grip

Perfect for working with wrapping gloves. The handle makes it easier to grip the tool and it is easier to guide it.

WrapDefender Loony

Perfect for cuts behind components / areas in front of it, such as radiators, furniture, window frames, car parts.

WrapDefender Mini

Shorter version of the original Wrap Defender. Ergonomic handle and perfect for filigree cuts.

WrapDefender SuperSet

This Set includes all WrapDefender version, a replacement head and spare blades.

30WrapGuide

With this 30 degree squeegee stencil and the matching, water-proof EasyDot WindowDry, you can quickly and easily draw a „cheat sheet“ on your squeegee.

EasyApplyFluid

The application fluid with two different „opening times“ and two different flavours.

WrapStraight Cut Black

The car wrapping spatula for clean and precise distance cuts. Available in three versions: 1 mm, 2 mm and 3 mm.

SpeedMag HD

Powerful Magnet - Allows transfer work unassisted.

YelloCase Tweezer Set 6

We put together your favourite 6 tweezers for you. Our special tweezers for carwrap and signmaking are now available as a set in our new and practical synthetic leather bag.

YelloCase Z-WrapSet

Wrapmaster Zigrid Tijunelis with Signmakertools Canada showed us his favourite little Toolbox for Carwrap Applications and inspired us to this Casebox.

YelloCase Blade Set

Just try all the SpareBlades that Yellotools has to offer from our YelloCase Blade Set with the YelloCut Master

Wrap-U-ezee

Foiling aid for protruding vehicle parts. The special feature here is that the films can be evenly pre-stretched and the danger of overstretching in certain areas is extremely reduced.

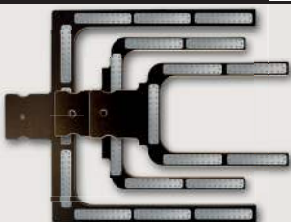

Wrap-U-ezee Flat

Foiling aid for GPS antenna on the car. With the help of the new Wrap-U-ezee Flat, many add-on parts can now be wrapped directly on the vehicle without disassembly.

Wrap-U-ezee Bumper

With our new Wrap-U-ezee Bumper you can wrap bumper corners or very large chassis parts.

Wrap-U-ezee Slight-in

For wrapping dismantled vehicle parts To use the Wrap-U-ezee Slight-in's, you don't have to buy one of the Boards. You can also go with an optional Benchbraket or a single Wallmount Bracket.

WrapBar-ezee

Foil stretching aid. Thanks to the acrylic glass applications, you can perfectly pre-tension and cover your films on fenders, protruding edges or more complex parts.

YelloPEG System

The new generation of WRAP. Since all items in this System are individual, you can build your own personal "WrapWall". The Boards are available either as a single unit or as a triple board. But no matter what, you can extend the single to a double, a triple to a quadripartite and so on.

APE DuoGreen

Squeegee for PPF. The two-layer construction gives stability and flexibility at the same time. Different edge grindings of 30, 45 and 90 degrees allow different pressures to be applied. The DuoGreen is the harder version.

APE DuoRed

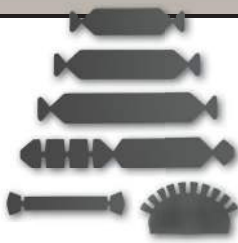

Squeegee for PPF. The two-layer construction gives stability and flexibility at the same time. Different edge grindings of 30, 45 and 90 degrees allow different pressures to be applied. The DuoRed is the softer version.

PPF Sandwich

This squeegee, which is actually unusually thin for PPF or tinted film applications, is nevertheless stable enough to exert optimum pressure on the squeegee edge. For large areas it guarantees fatigue-free work. Thanks to its pointed edge ergonomics, it enables optimal working out of the adhesive up to the edges.

APE T-Buffer

Due to the extremely gliding surface, the film is not „displaced“ during squeegee operation. So you can simply squeegee away the wrinkles that occur when the adhesive is pressed out. The flexible buffer contains an extra thick foam backing in the adhesive layer.

APE ApplePotion

Perfectly coordinated bonding aid for paint protection film (PPF).

APE FoamPotion

Perfectly coordinated bonding aid for paint protection film (PPF). The foam „stands“ longer than any normal liquid and it creates a „distance“ between the film/adhesive and the substrate.

EasyPump Foam

Pressure pump container with special head. The foaming degree is adjustable on three levels - SNOW FOAM (solid foam), MOUSSE FOAM (medium foam) and HYDRO FOAM (liquid foam).

EasyPump

Pressure pump sprayer. The special seals of this pump sprayer withstand most alcohol cleaners and its spray pattern is adapted to the challenges of all kinds of windscreen bonding.

APE MagCarpet

Flexible magnetic carpet with eight strong magnets. It hugs curves, has a high adhesive force and can no longer „roll away“ under the vehicle.

Ape Set-PPF I

Large paint protection film tool set for CarWrapper. We have put together a huge selection with our best tools for PPF stonechip protection films.

Ape Set-PPF II

With the Ape Set-PPF II you have the best conditions to pre-clean the vehicles perfectly. The set includes the ApeFoamPotion foam with the EasyPump Foam and the ApeApple Potion with the corresponding pump spray bottle EasyPump.

Ape Set-PPF III

XXL-Paint protection film set. For all those who start completely NEW, we offer the Ape Set-PPF III consisting of Ape Set-PPF I and Ape Set-PPF II. Herewith you are on the safe side to own the ultimate Starter Set and can start right away.

YelloQuickStick

Check the surface tension of car paints and signs very fast.

CarWrap Set

Everything you need for a professional Vehicle Foiling - 14-pieces Car Wrapping Set.

WrapTweezer AutoLock

a Tweezer with a geared spade-shaped point which helps to grap the vinyl safely for stretching. The AutoLock variant can also be locked to keep your hands as free as possible.

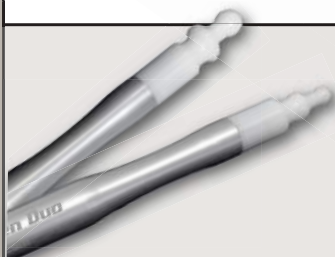

WrapTweezer Disc

A tweezer with a geared plate-shaped oint which helps to grap the vinyl safely for stretching. The AutoLock variant can also be locked to keep your hands as free as possible.

WrapTweezer Spade

A tweezer with a geared plate-shaped oint which helps to grap the vinyl safely for stretching.

Lucky FlipperPen Duo

This ingenious Car Wrapping Stick allows you to apply vinyls on the door rabbet and edges in general.

WrapSlipCut MagicMaster

Teflon squeegee with parallel slots. Knife guidance for clean vinyl cutting.

WrapSlipCut Clipper

Knife guidance and cutting spacer in one Car Wrapping Tool.

WrapSlipCut Mini

Cutting aid for clean parallel cuts.

YelloTape Start

The little helper to open the „Knifeless Tapes“.

WrapFinger

The Car Wrapping Glove for one single finger!

SnugPad

Sitting and Kneeling Mat for Signmakers in three variants.

WrapSun Power

Infrared heater for heating up the vinyl.

StrikerSet

27-piece tool set for the disassembly of car interior lining, trim or door handles.

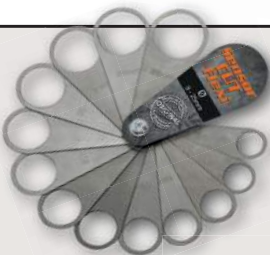

MagTool Tray

Magnetic tool tray with strong adhesive magnets for use on vehicles.

PrintEx Pen

Remove ink stains or other small mistakes on your digital print in no time!

SensorCut Flexi

Practical cutting template for parking sensors.

WrapBend-it

Shaped wire for copying vehicle contours.

YelloGloves

High quality nylon gloves for car wrapping & sign making.

GloveMaxx ProWrap

These specially designed gloves have a four times higher gliding performance than conventional Car Wrapping gloves due to their „wet feeling effect“.

YelloOpen

The variable holding system for doors and flaps. Available in three versions.

PowerTape Family

Yellotools Tapes in different versions.

GeckoPatch

You want to make non-magnetic, even surfaces like windows, fiberglass assemblies, aluminum hoods or plastic doors „magnetic“ - just press our GeckoPatch on and continue to use your magnets as usual.

Fineline Tape

High-quality Crepe and Cutting Tape in different versions.

YelloBlade Handle 360

The foil removal tool YelloBlade Handle 360 now contains the Yello-Blade 360 in a round shape and also does not leave any scratches or damage. The corresponding handle fits ergonomically perfectly in the hand.

LacyTip Family

With the LacyTips you can easily lift rubber lips or apply vinyl on hard-to-reach areas.

RubberLift

The Car Wrapping Tool #1 for lifting rubber gaskets.

WrapStick Family

The tiny squeegee in 18 different version and 5 different shore degrees.

WrapStick Sets

All Squeegee Pens in a set. Available in the normal edition and deluxe edition with a leader bag.

WrapStick Wings

Matching protections for the WrapSticks in different version: poly and teflon.

WrapStick Station / Mag

Squeegee pen holder for wall mounting or as a magnetic version. There are two magnets on the WrapStick station so that you can park the holder on the vehicle at any time.

MERCHANDISE

T-Shirts

Hoodies

Sweat Jackets

YelloMug

YelloBag

YelloPicker Jack

THE LEAN DEAL

Unbelievable! A textbook that reads like a novel.

Michael Althoff succeeds in writing in such a remarkable way that on every page he seems to look over the shoulder of the reader and enter into a dialogue with him beyond the lines read.

For the reader, it is a very exciting and practical experience as the author's magical working world opens up.

Michael Althoff manages to address several target groups at the same time, the representatives of the POWER teams as well as the representatives of the NAVIGATIONS teams (you have to read for yourself what is meant by this).

The world of lean management is opened up in this book as attitude, joy of life and work and growth fertilizer for humans and organization.

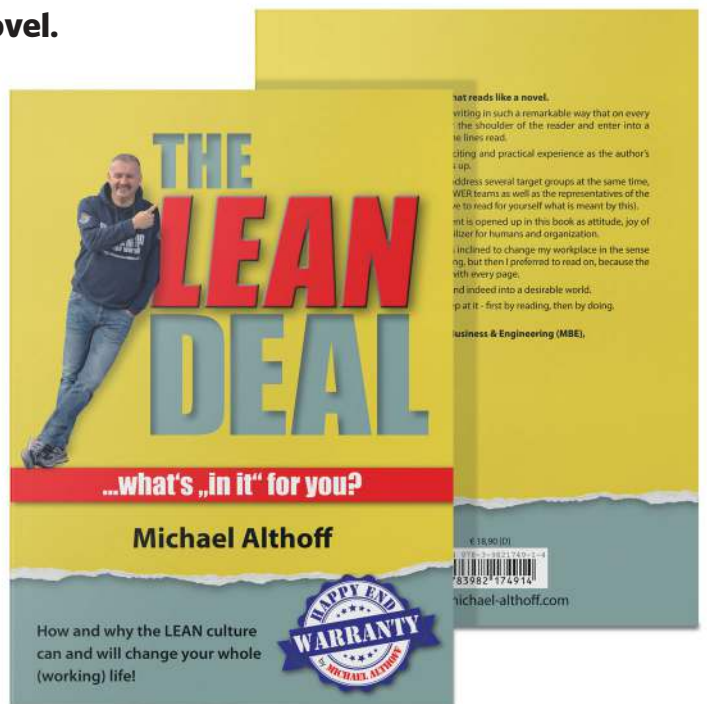

While I was still reading, I was inclined to change my workplace in the sense of lean thinking and lean acting, but then I preferred to read on, because the book makes you want more with every page.

With lean it goes on and on and indeed into a desirable world.

You just have to start and keep at it - first by reading, then by doing.

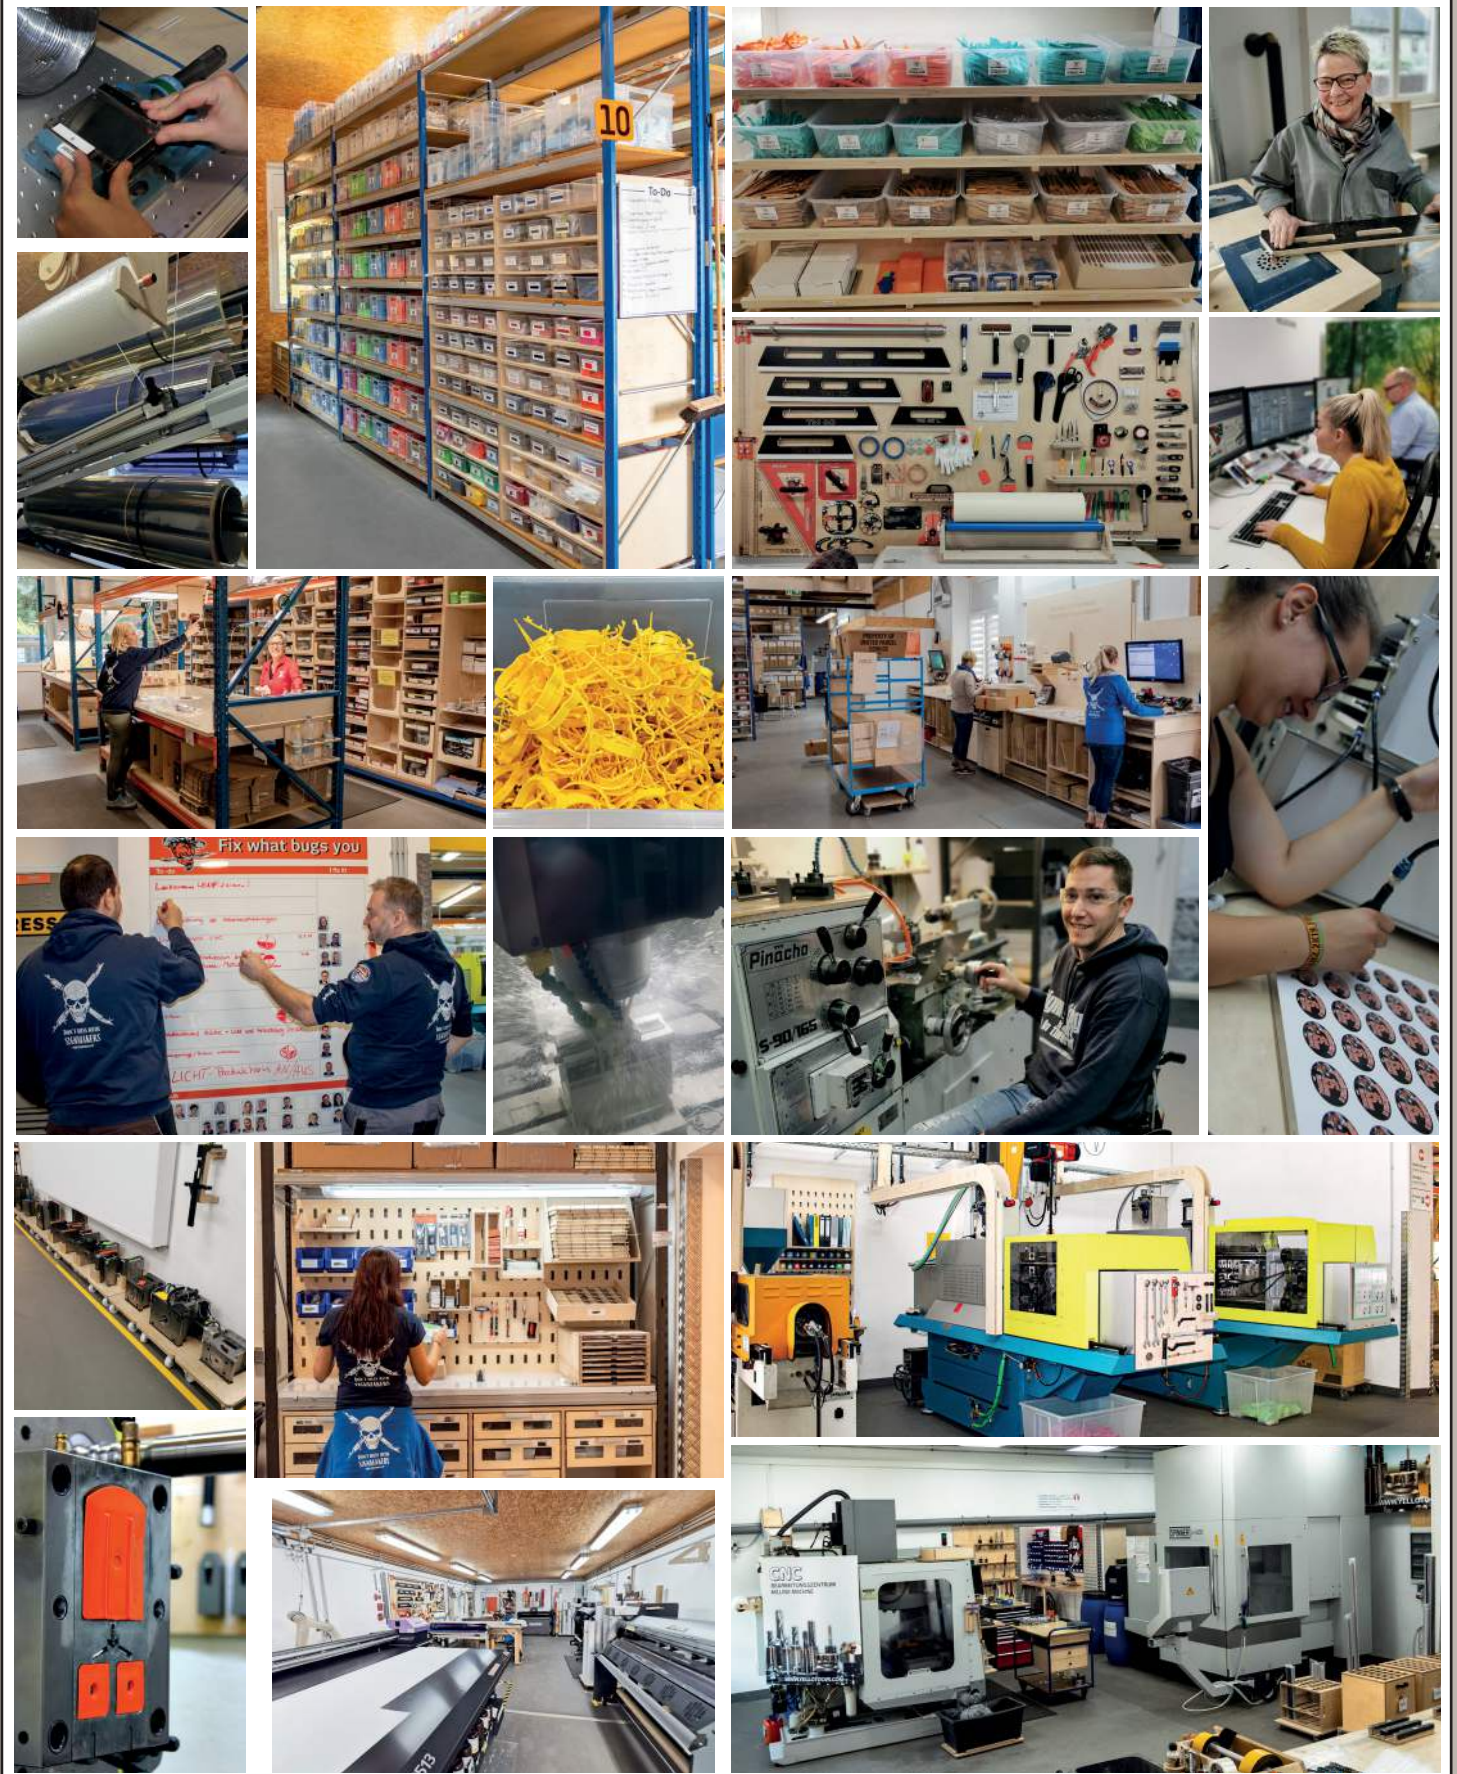

Are you interested in Lean and want to learn more about The Lean Deal? Then simply scan the QR-Code and go directly to the book in our online shop.

“Do they really manufacture those tools by themselves?”

Yes, we do. More than 75% of our products are produced by ourselves in our small but nice manufacture, located in the beautiful “Windecker Ländchen”. During our active time as sign-makers we discovered some funny & innovative improvements. Those affected our daily work life so much positively, that we started to produce them in series. As shown in the pictures below we develop, design & sell all of our products and we produce most of them with our own machines and technologies. Our injection molding machines, CNC-miling machines, CNC-editing, water jet, our master joinery, printers and punches are used with know-how and passion to make your work life easier.
