

DTF Printer and Powder Machine 60cm (I3200)

New Two In One Roll To Roll PET Film Printer Heat Transfer PET Film Pyrography Vinyl Powdering And Drying Machine.

Technical Data (DTF Printer)

Model	YXD-PET600
Printhead	EPSON i3200A *2
Resolution	1400dpi/1080dpi/720dpi/360dpi
Speed	4-Pass 15m ² /h, 6-Pass 10m ² /h
Printing Size	600mm
Colours	CMYK+W output at the same time
Printing Media	PET Transfer Film
Media Sending	Auto-System to Put and Harvest Film
Heating Device	Heating Device in the three parts of Front/Middle/Last
Interface	USB3.0
Ink	Environmentally friendly water base pigment fabric ink
Ink System	Auto-Supply of ink. Auto-Circle system of White Ink
Power	110V/220V/50HZ/60HZ
Environmental Temperature	20-28°C
Weight	150kg
Machine Size	Length 1740mm : Width 805mm : Height 1300mm
Packing Size	Length 1880mm : Width 840mm : Height 620mm
Ink Coverage	CMYK W 1000ml Bottles – 150m*60cm Full Print (approximately 90m ²)

Technical Data (Powder Machine)

Model	YXD-650D
Media Width	0-600mm
Media	Nylon, chemical fibre, cotton, leather, swimsuit, wetsuit, PVC, EVA
Powder Control	Control the shaking, spread and the direction and volume of powder
Heating and Drying	Tunnel type efficient and powerful drying and curing
Rewinding Function	Automatic sensing winding
Power	220V/30A/50kW. Energy consumption 2.5kW-4.5Kw
Weight	190kg
Machine Size	Length 1785mm : Width 1092mm : Height 1247mm
Packing Size	Length 1700mm : Width 1150mm : Height 1450mm
