ORACAL® DX03
Decorative Window Films

Technical
Data Sheet
2020/01

Description
ORACAL® DX03 is a window film series produced for interior design. It has 50 micron thickness. Interior design window films are developed as an affordable solution for creating decorative areas and privacy.

Pattern
White circles of 3mm diameter, decorative window film

Release Paper
Silicone-coated transparent polyester on one side

Adhesive
Acrylic copolymer, transparent

Area of Use
The areas of use of ORAFOL decorative window films are quite extensive. Use in areas such as glass doors, showcases, room dividers, glass surfaces in meeting rooms and airport waiting rooms is recommended. They are also suitable for areas where you may need them for privacy, such as bank windows, laboratory or hospital windows.
